

# POKEMONGO: A QUICK USER GUIDE

*Developers: Edoardo Fazzari, Mirco Ramo, Olgerti Xhanej*

# LOG IN

---

- This is the first window the application shows.
- Fill the textfields if you have an account, then click “LOG IN” for signing in your account.
- Otherwise, click “SIGN UP” to register.

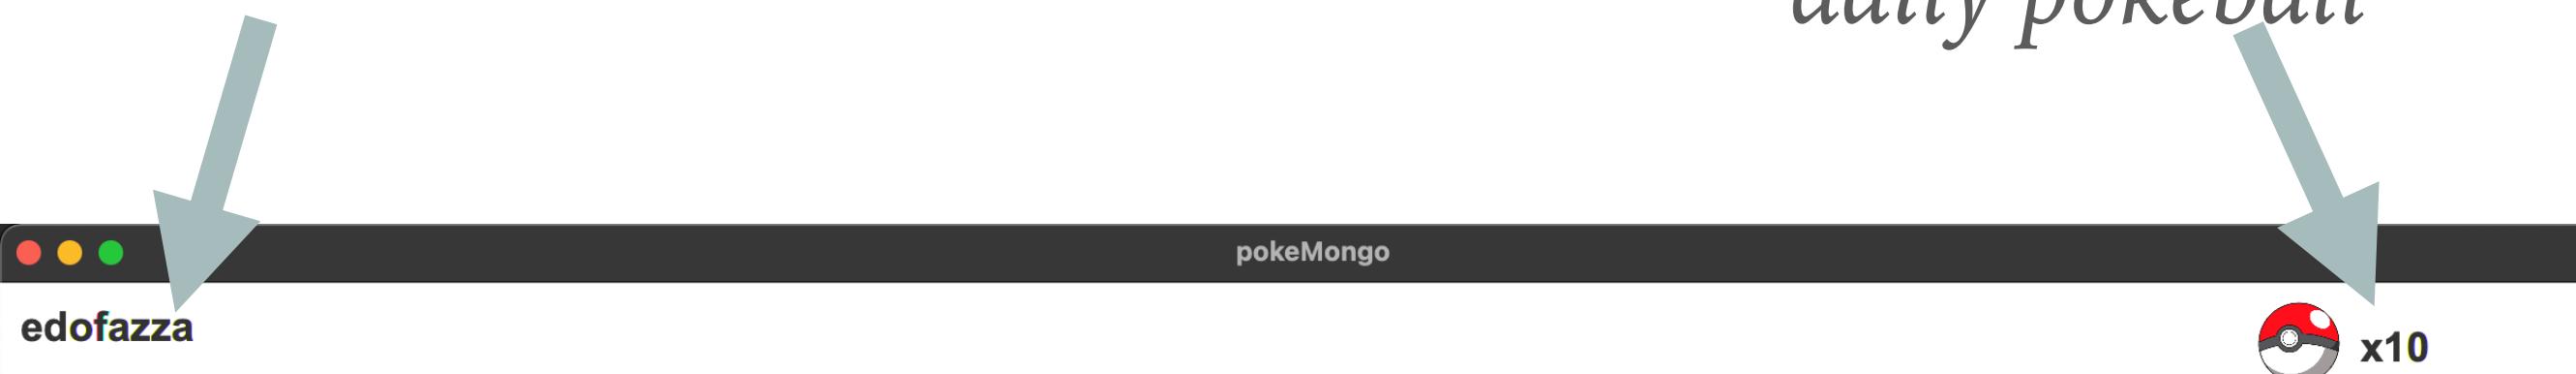

# SIGN UP

---

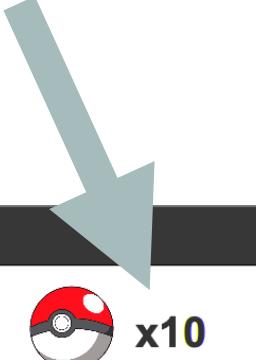

The screenshot shows the sign-up interface for the PokeMongo application. At the top, there's a dark header bar with three colored dots (red, yellow, green) on the left and the text "pokeMongo" in white on the right. Below the header, the title "PokeMongo" is displayed in a large, bold, red font. The main form area contains seven input fields arranged in two columns. The first column includes "Surname" (text input), "Username" (text input), "Password" (text input), and "Birthday" (date input). The second column includes "Name" (text input), "Email" (text input), "Confirm Password" (text input), and "Country" (dropdown menu). A red error message "Birthday must not be a day in the future" is visible next to the birthday input field. At the bottom left is a "BACK" button, and at the bottom center is a "SUBMIT" button.

- All the information asked are needed to register.
- After all the textfields are properly filled in (no red error banners appear and no empty textfield is present), then you can click “SUBMIT” to register.
- If you want to go back to the “LOG IN” page, just click the “BACK” button.

Your username will displayed here

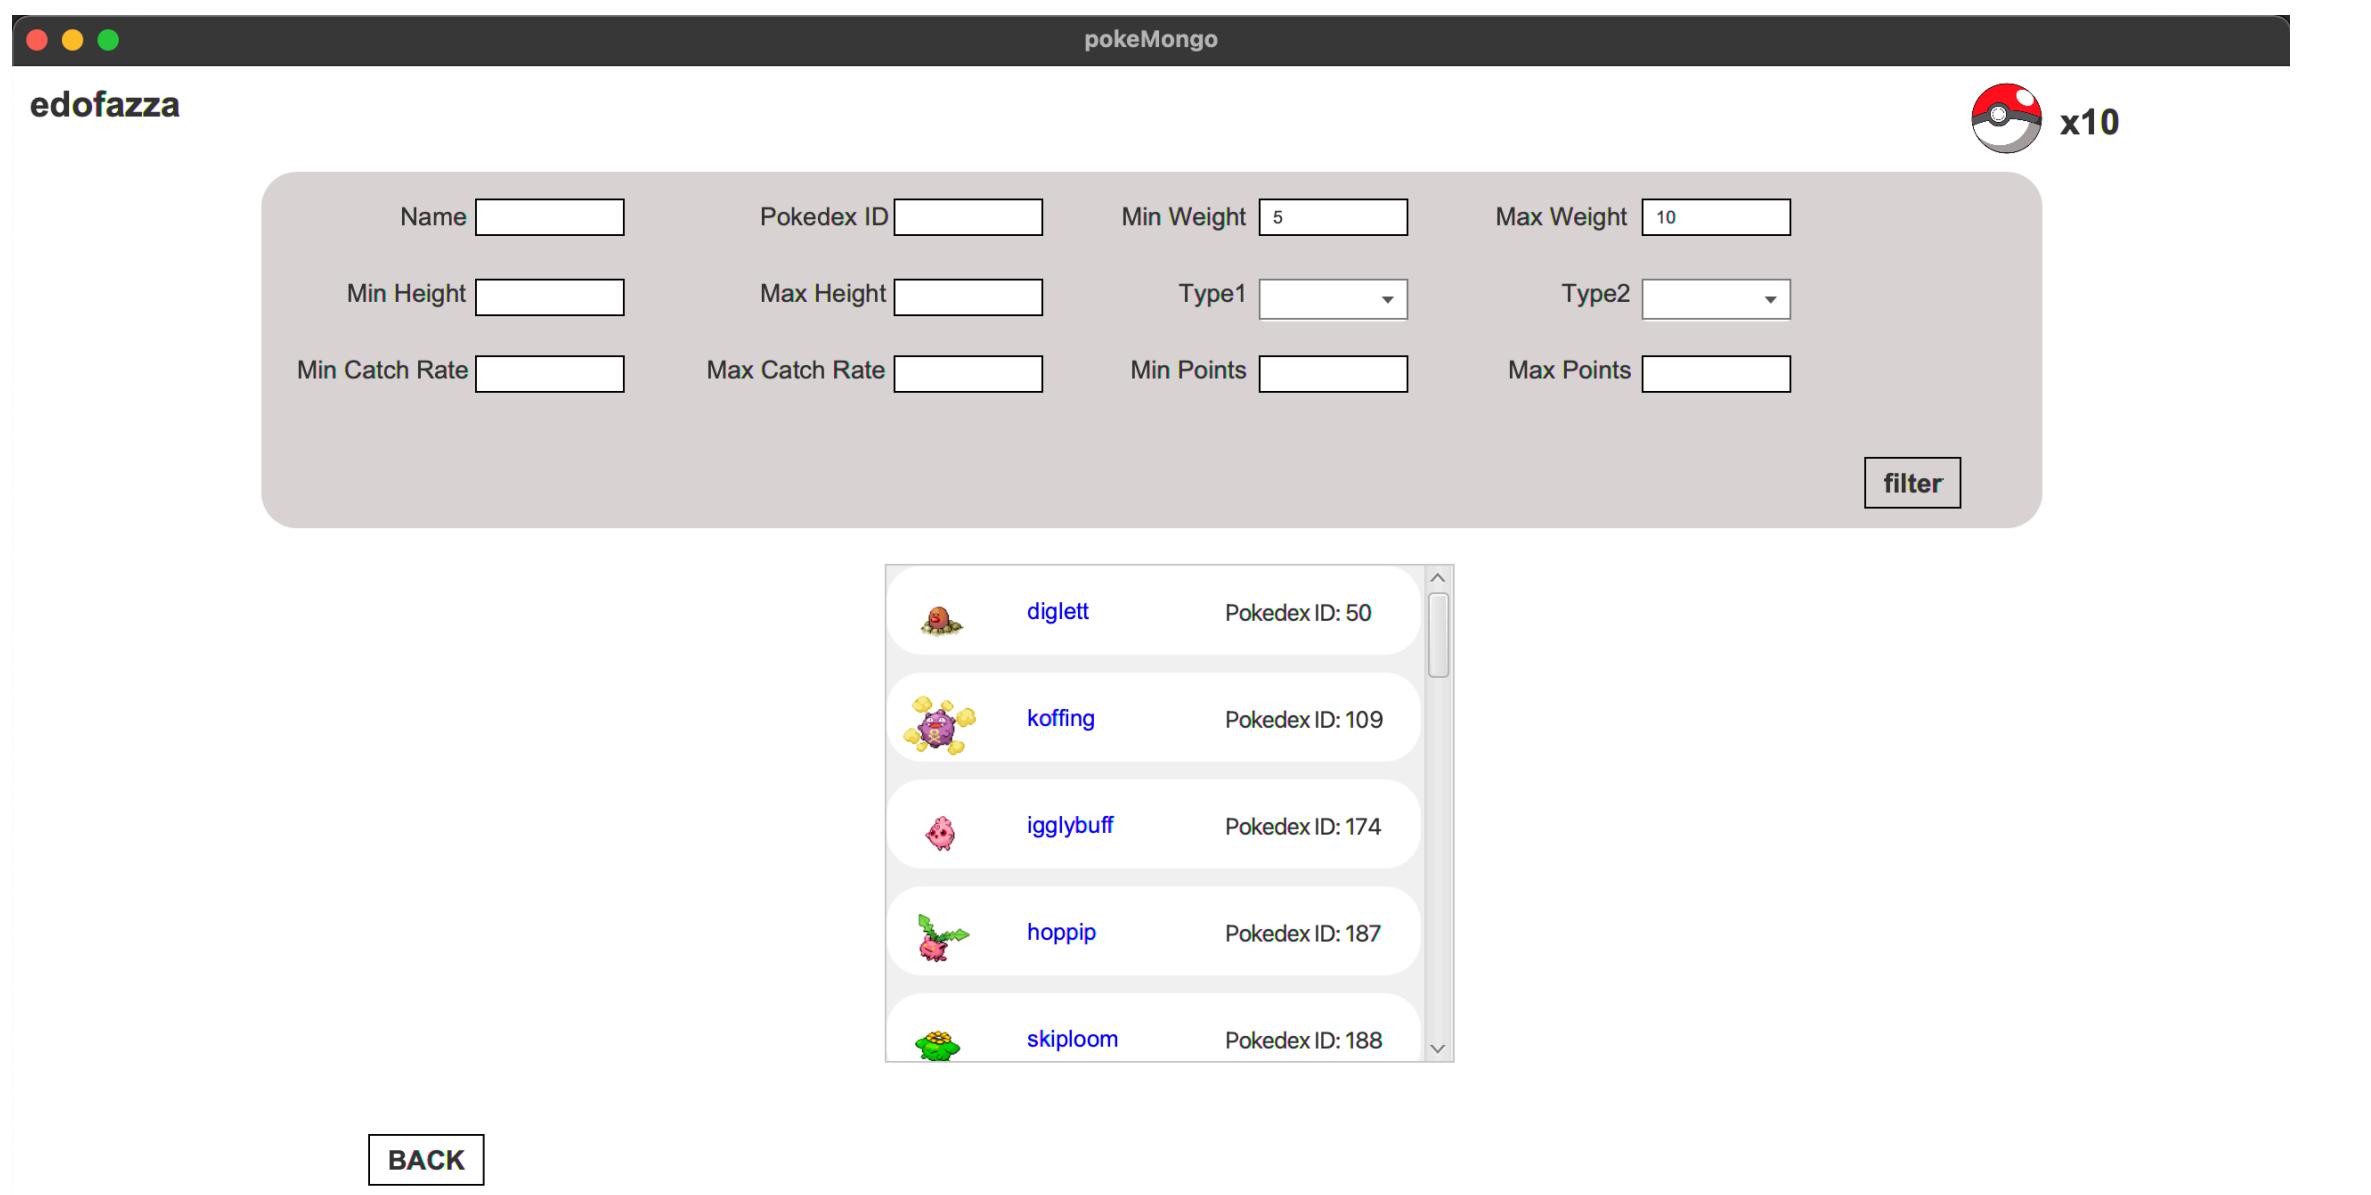

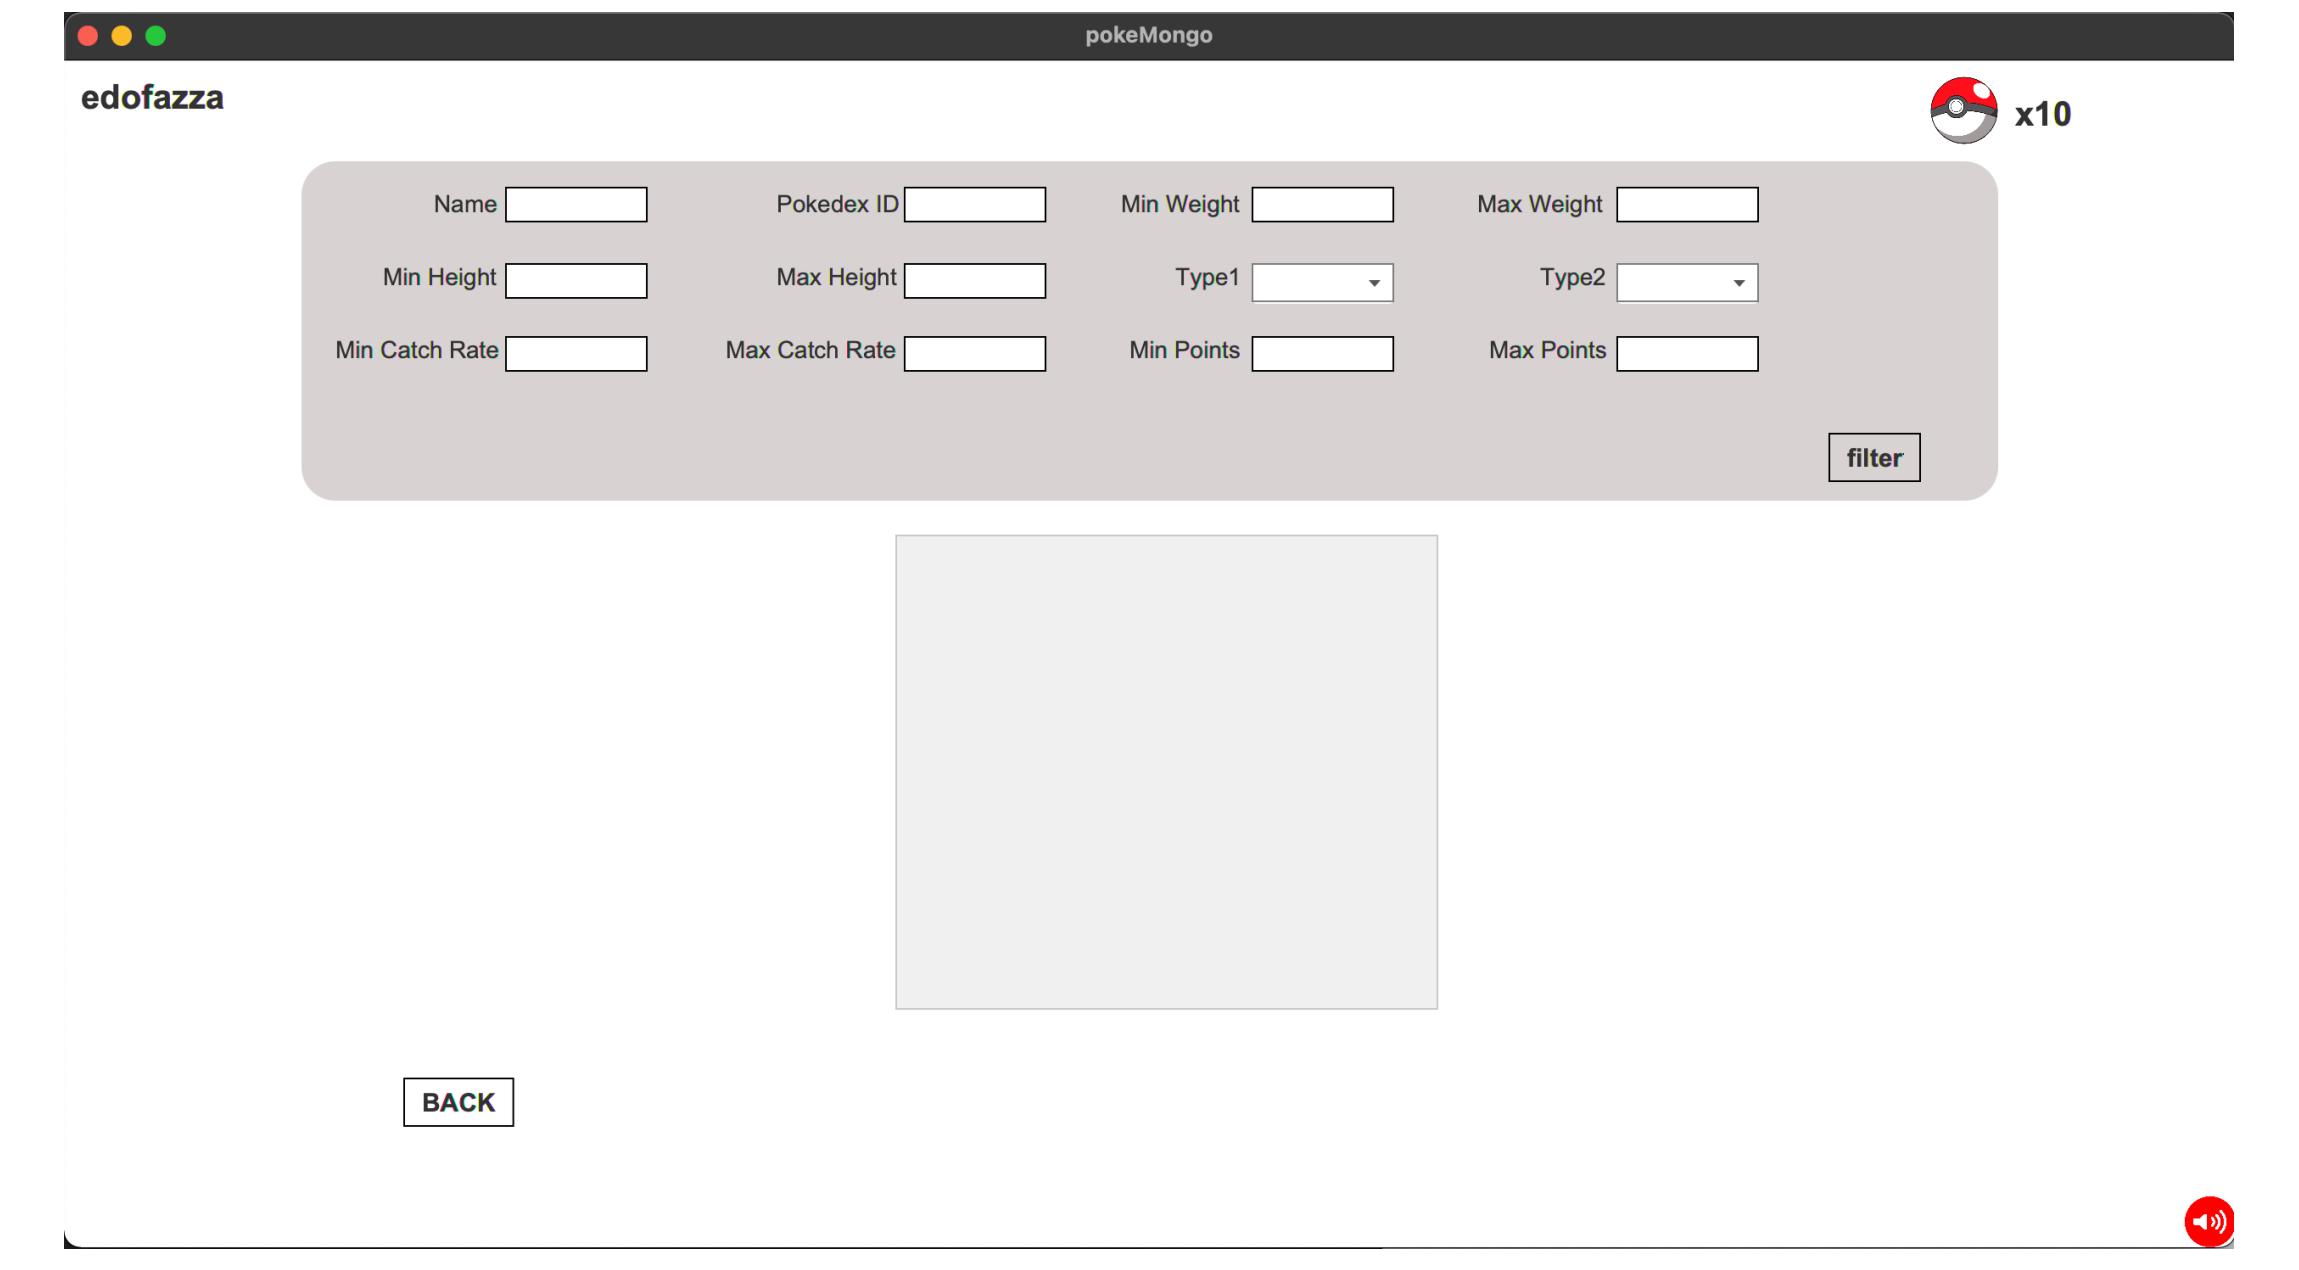

Number of remaining  
daily pokeball

## Homepage

- After you log in, you will be redirect to the homepage.
- Click the buttons to display what that suggest (i.e. if you click Team, you will see your team)
- The “LOG OUT” button will log you out from the account. You will be redirect to the LOG IN page.

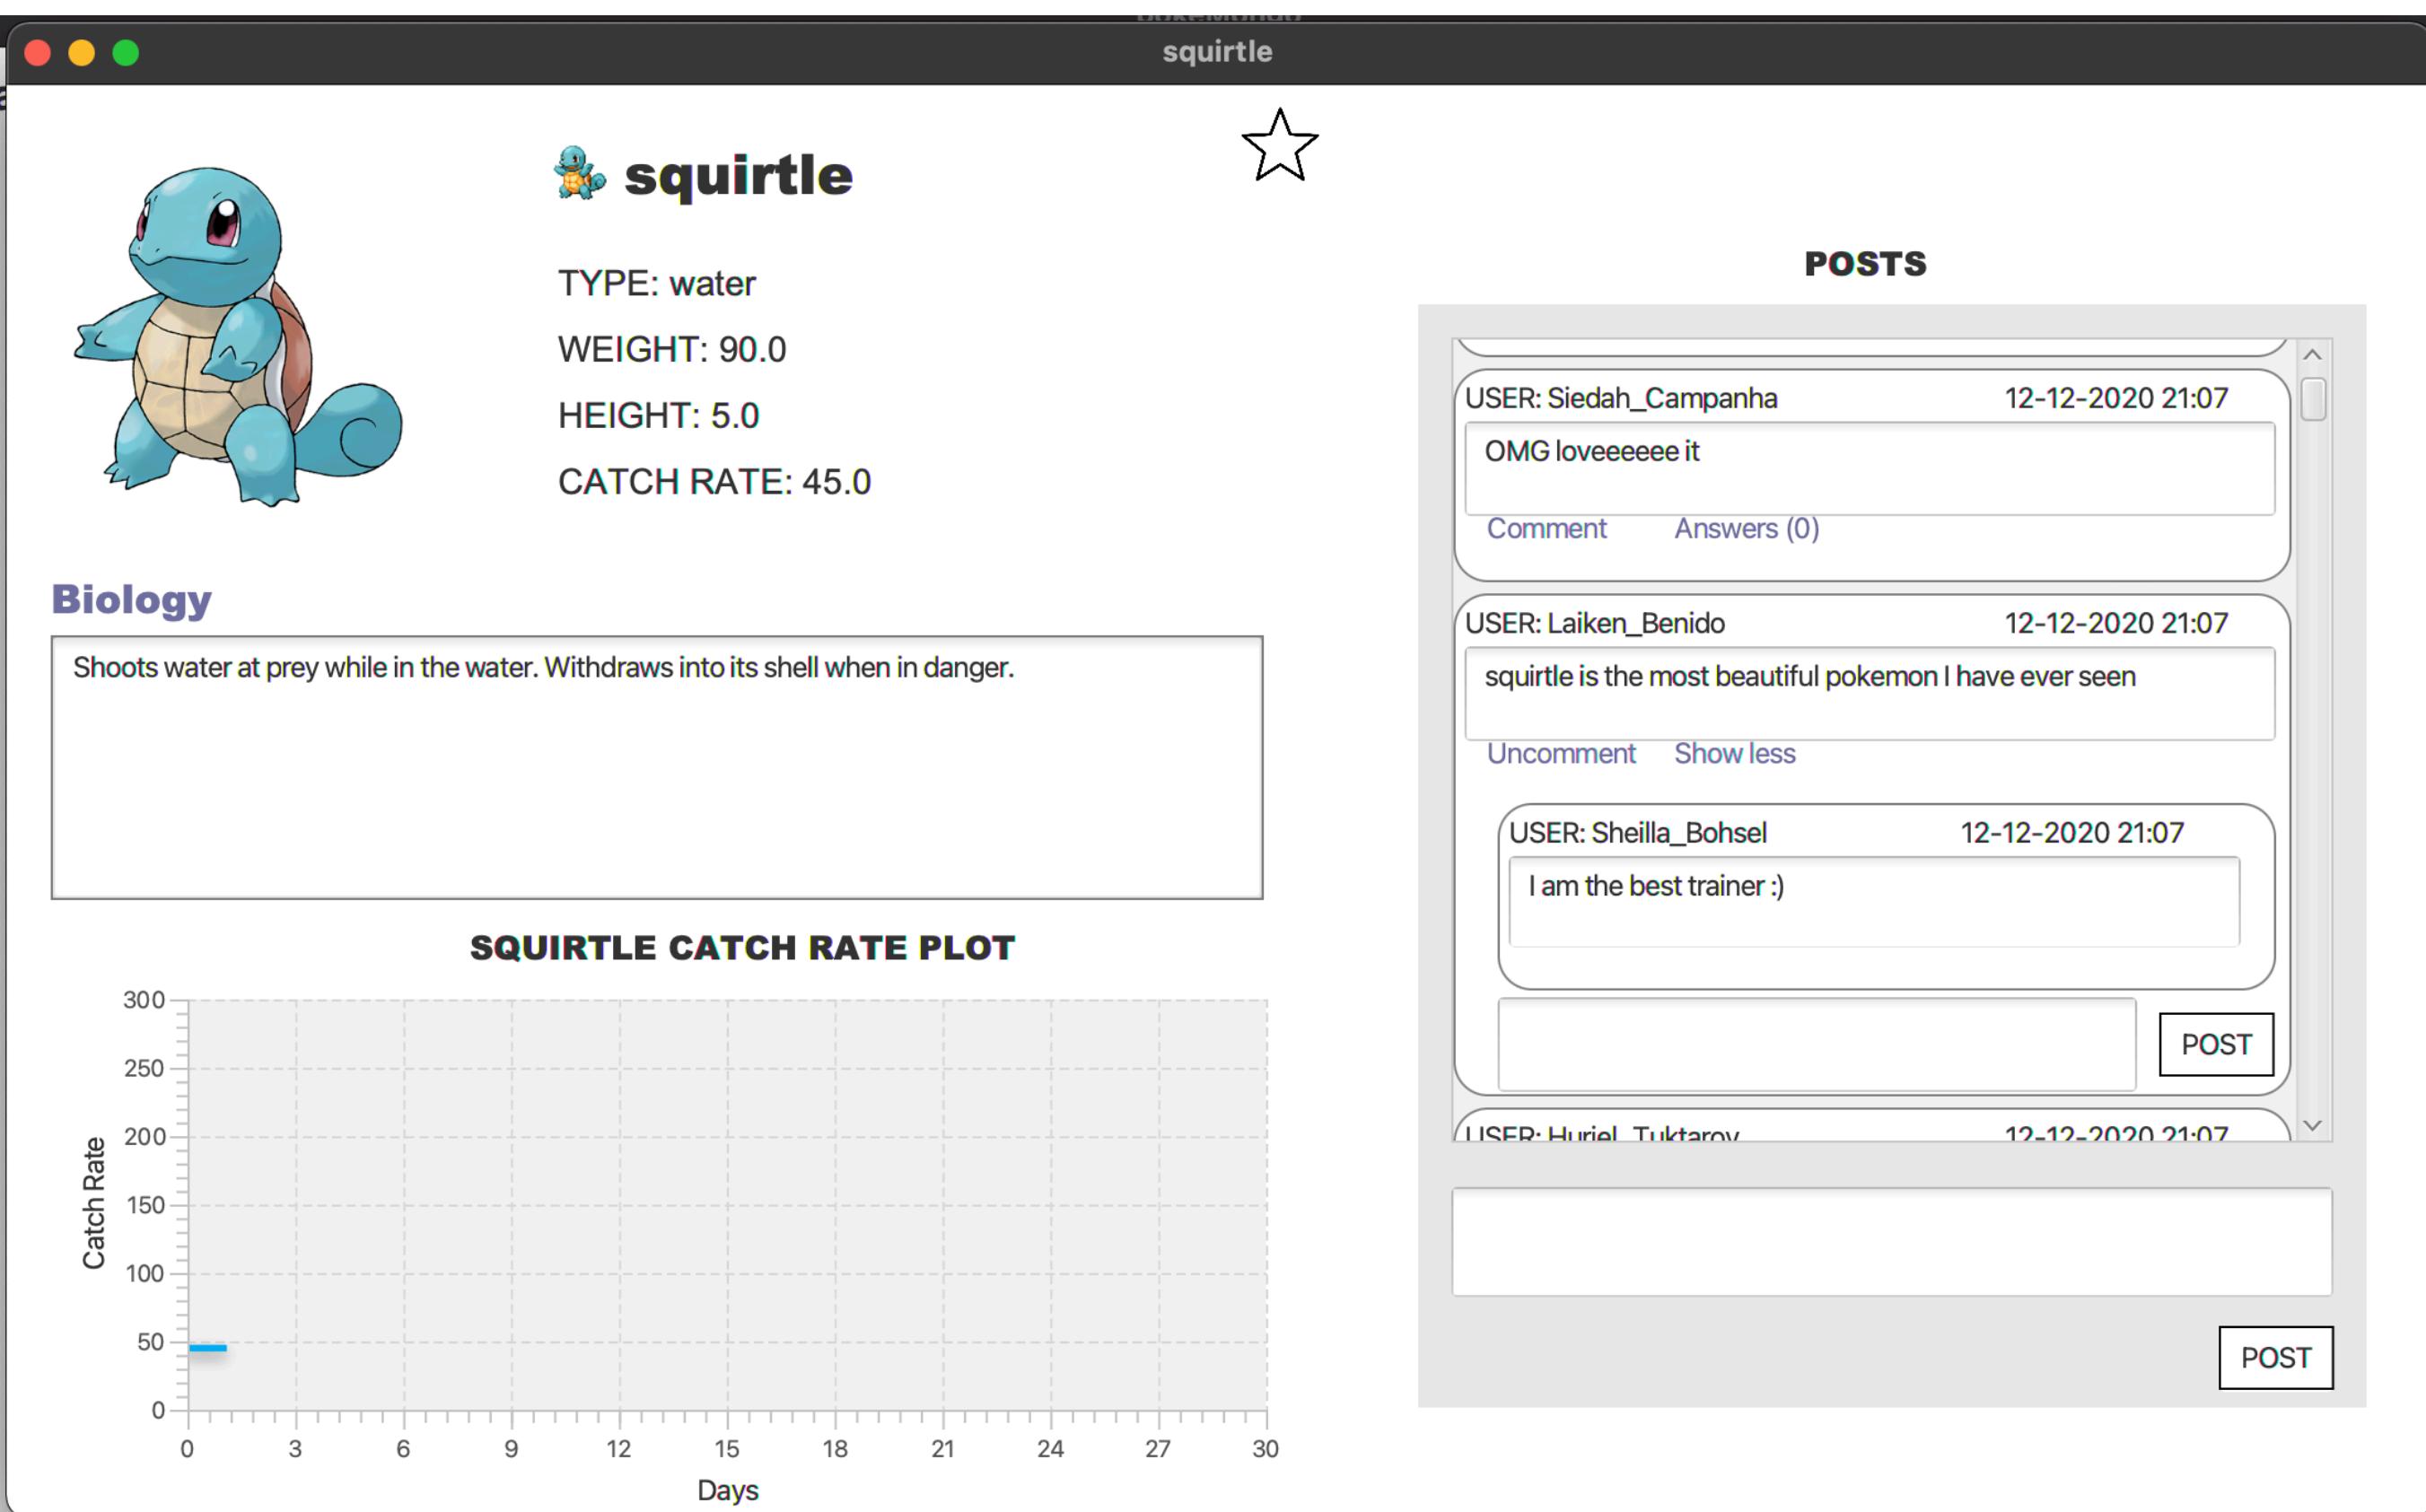

# POKEDEX

---

- The Pokedex will help you to discover new Pokemons and to know more about Pokemons you already know.
- You can use as many parameters you want for searching, but at least one should be used. When you have set up all the values you want, then click “filter” to receive the result in the grey pane below.
- The image below shows an example of filtering. Don't worry if the images doesn't appear, if you are connected to the internet they will.
- You can click the Pokemon's name to open a new window with the Pokemon information.
- The “BACK” button will redirect you again to the homepage

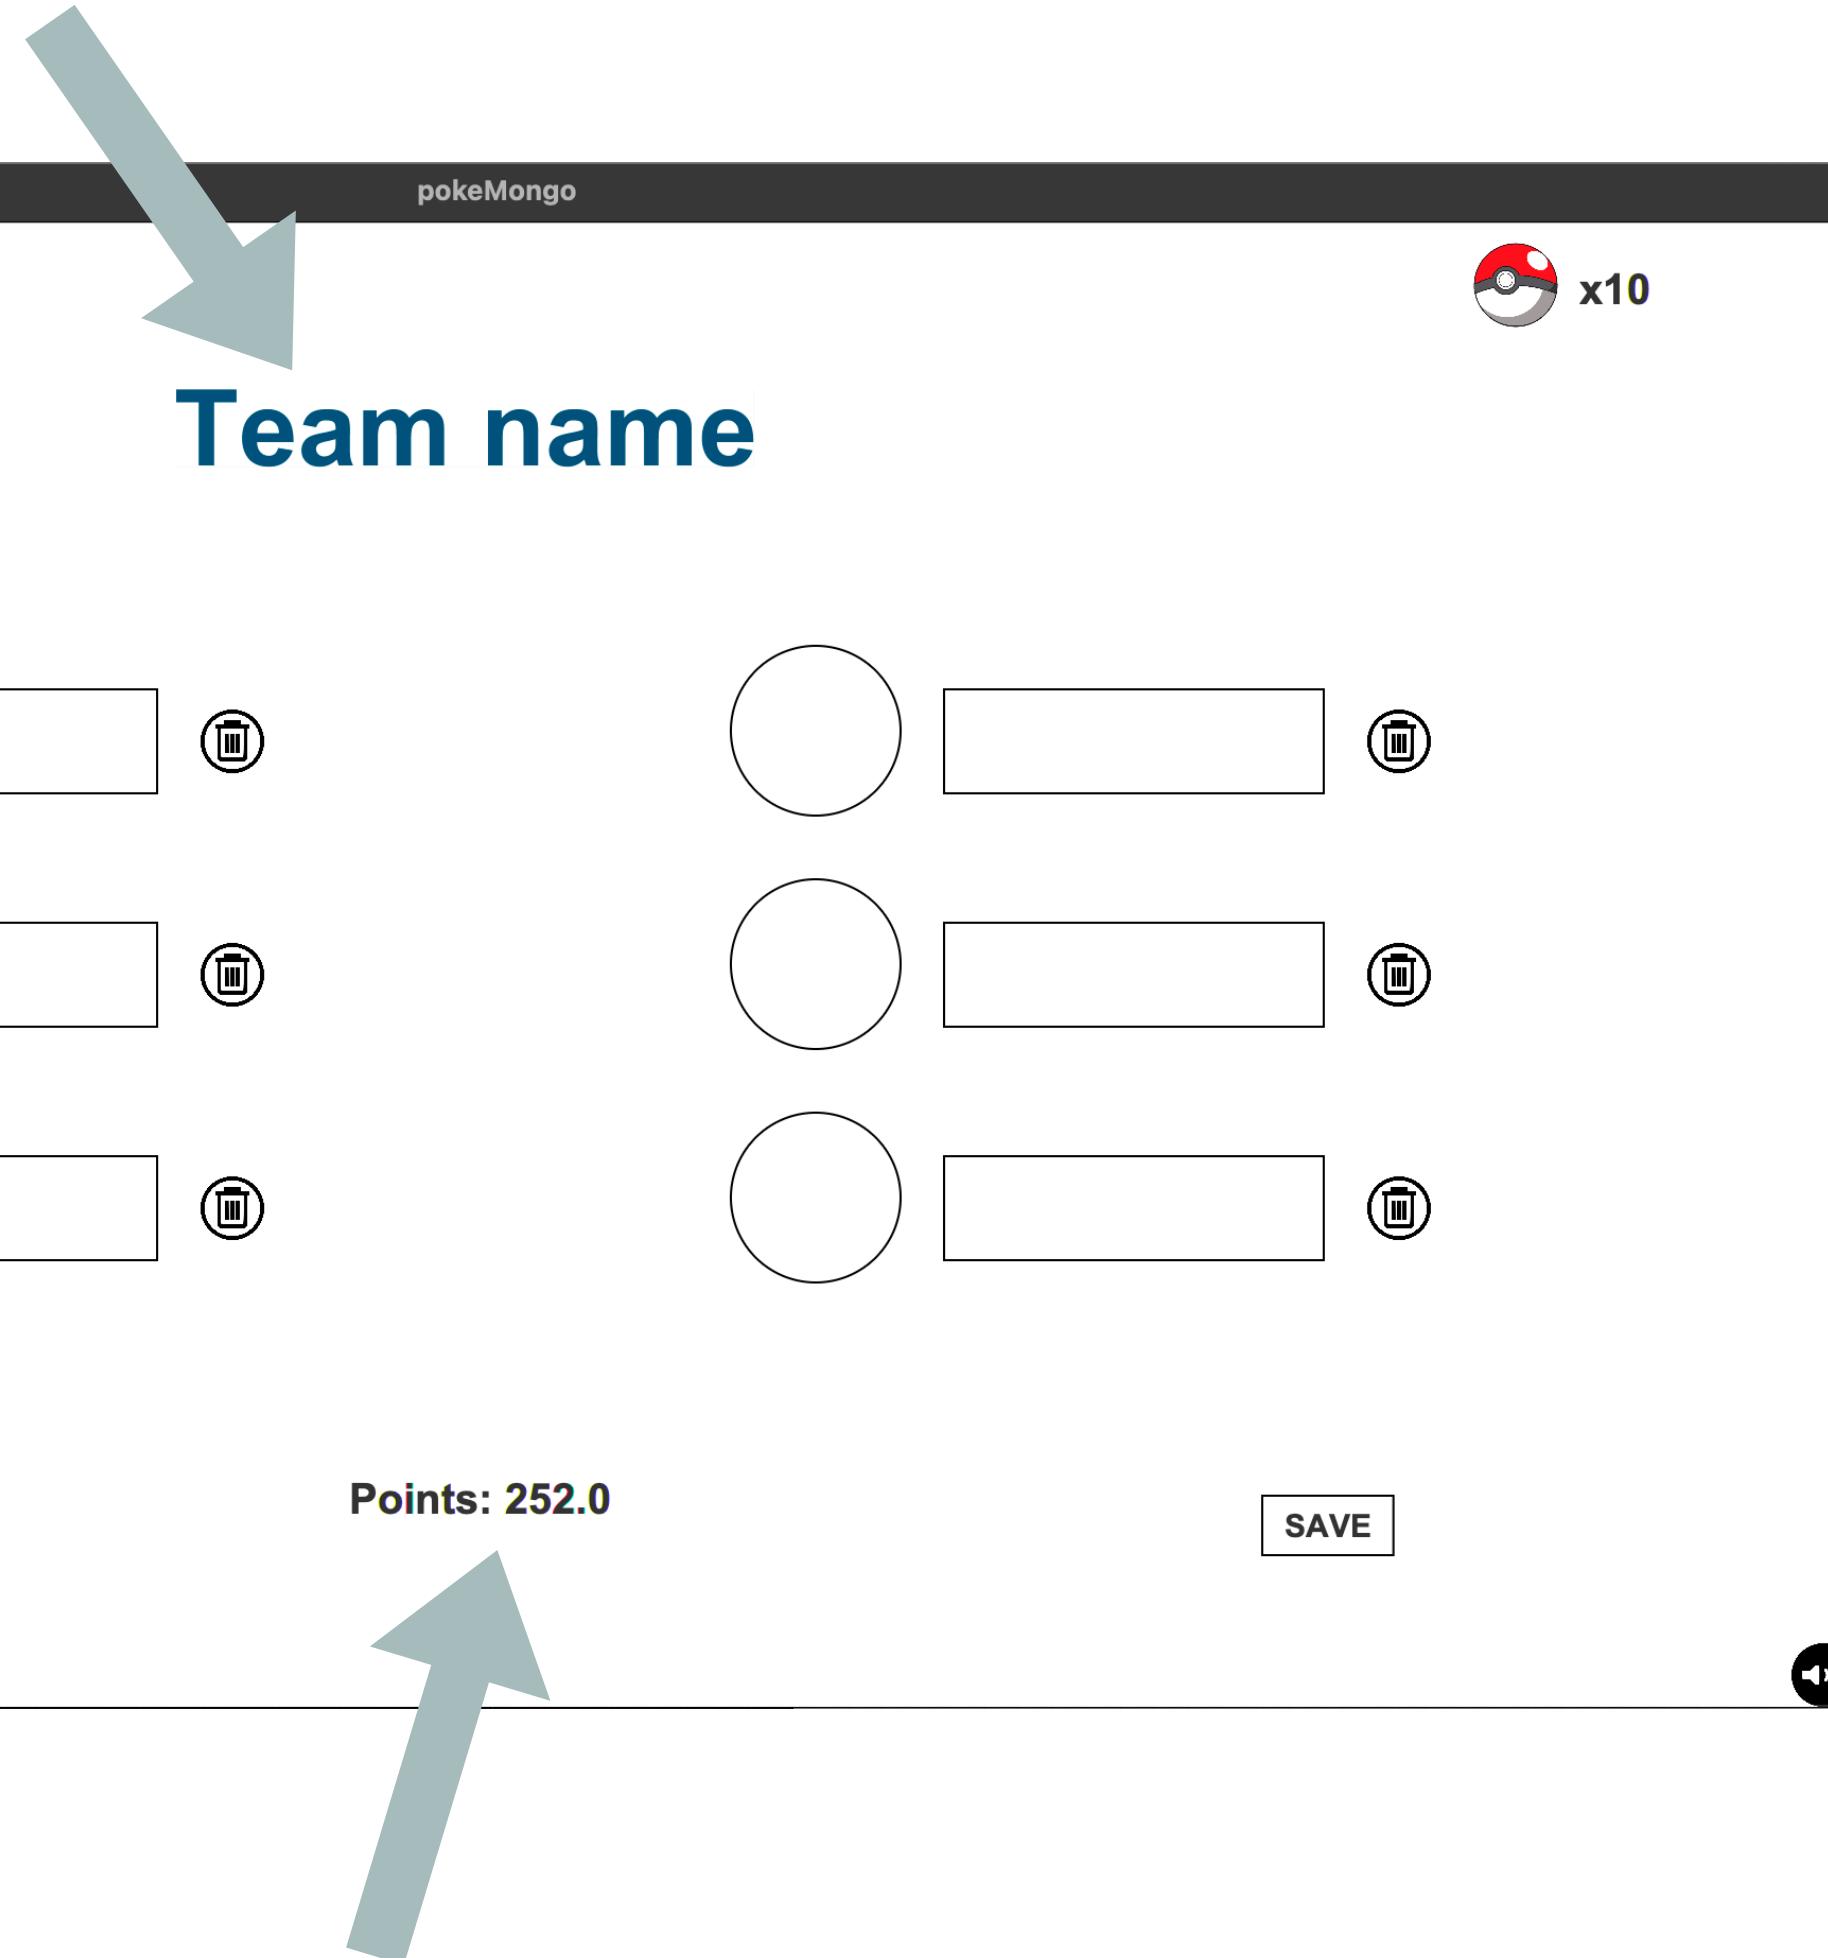

# POKEMON WINDOW

---

- In this page all the information regarding a single Pokemon are shown.
- The basic information are: the pokemon name, its type, weight, height, catch rate and its biology (a short description).
- At the left bottom you can see a plot in which it's displayed the evolution of the selected Pokemon in the last thirty days.
- The STAR is a special button, if you click on it you will make that Pokemon one of your favorites. The star will turn yellow. To remove it from favorites you have just to click on it, the star will turn than white again.
- The POSTS section will let you write a post or even comment a post already present.
- If you are the owner of a post/comment you can delete it, clicking a red text saying “DELETE” inside the post pane.

*Editable textfield*

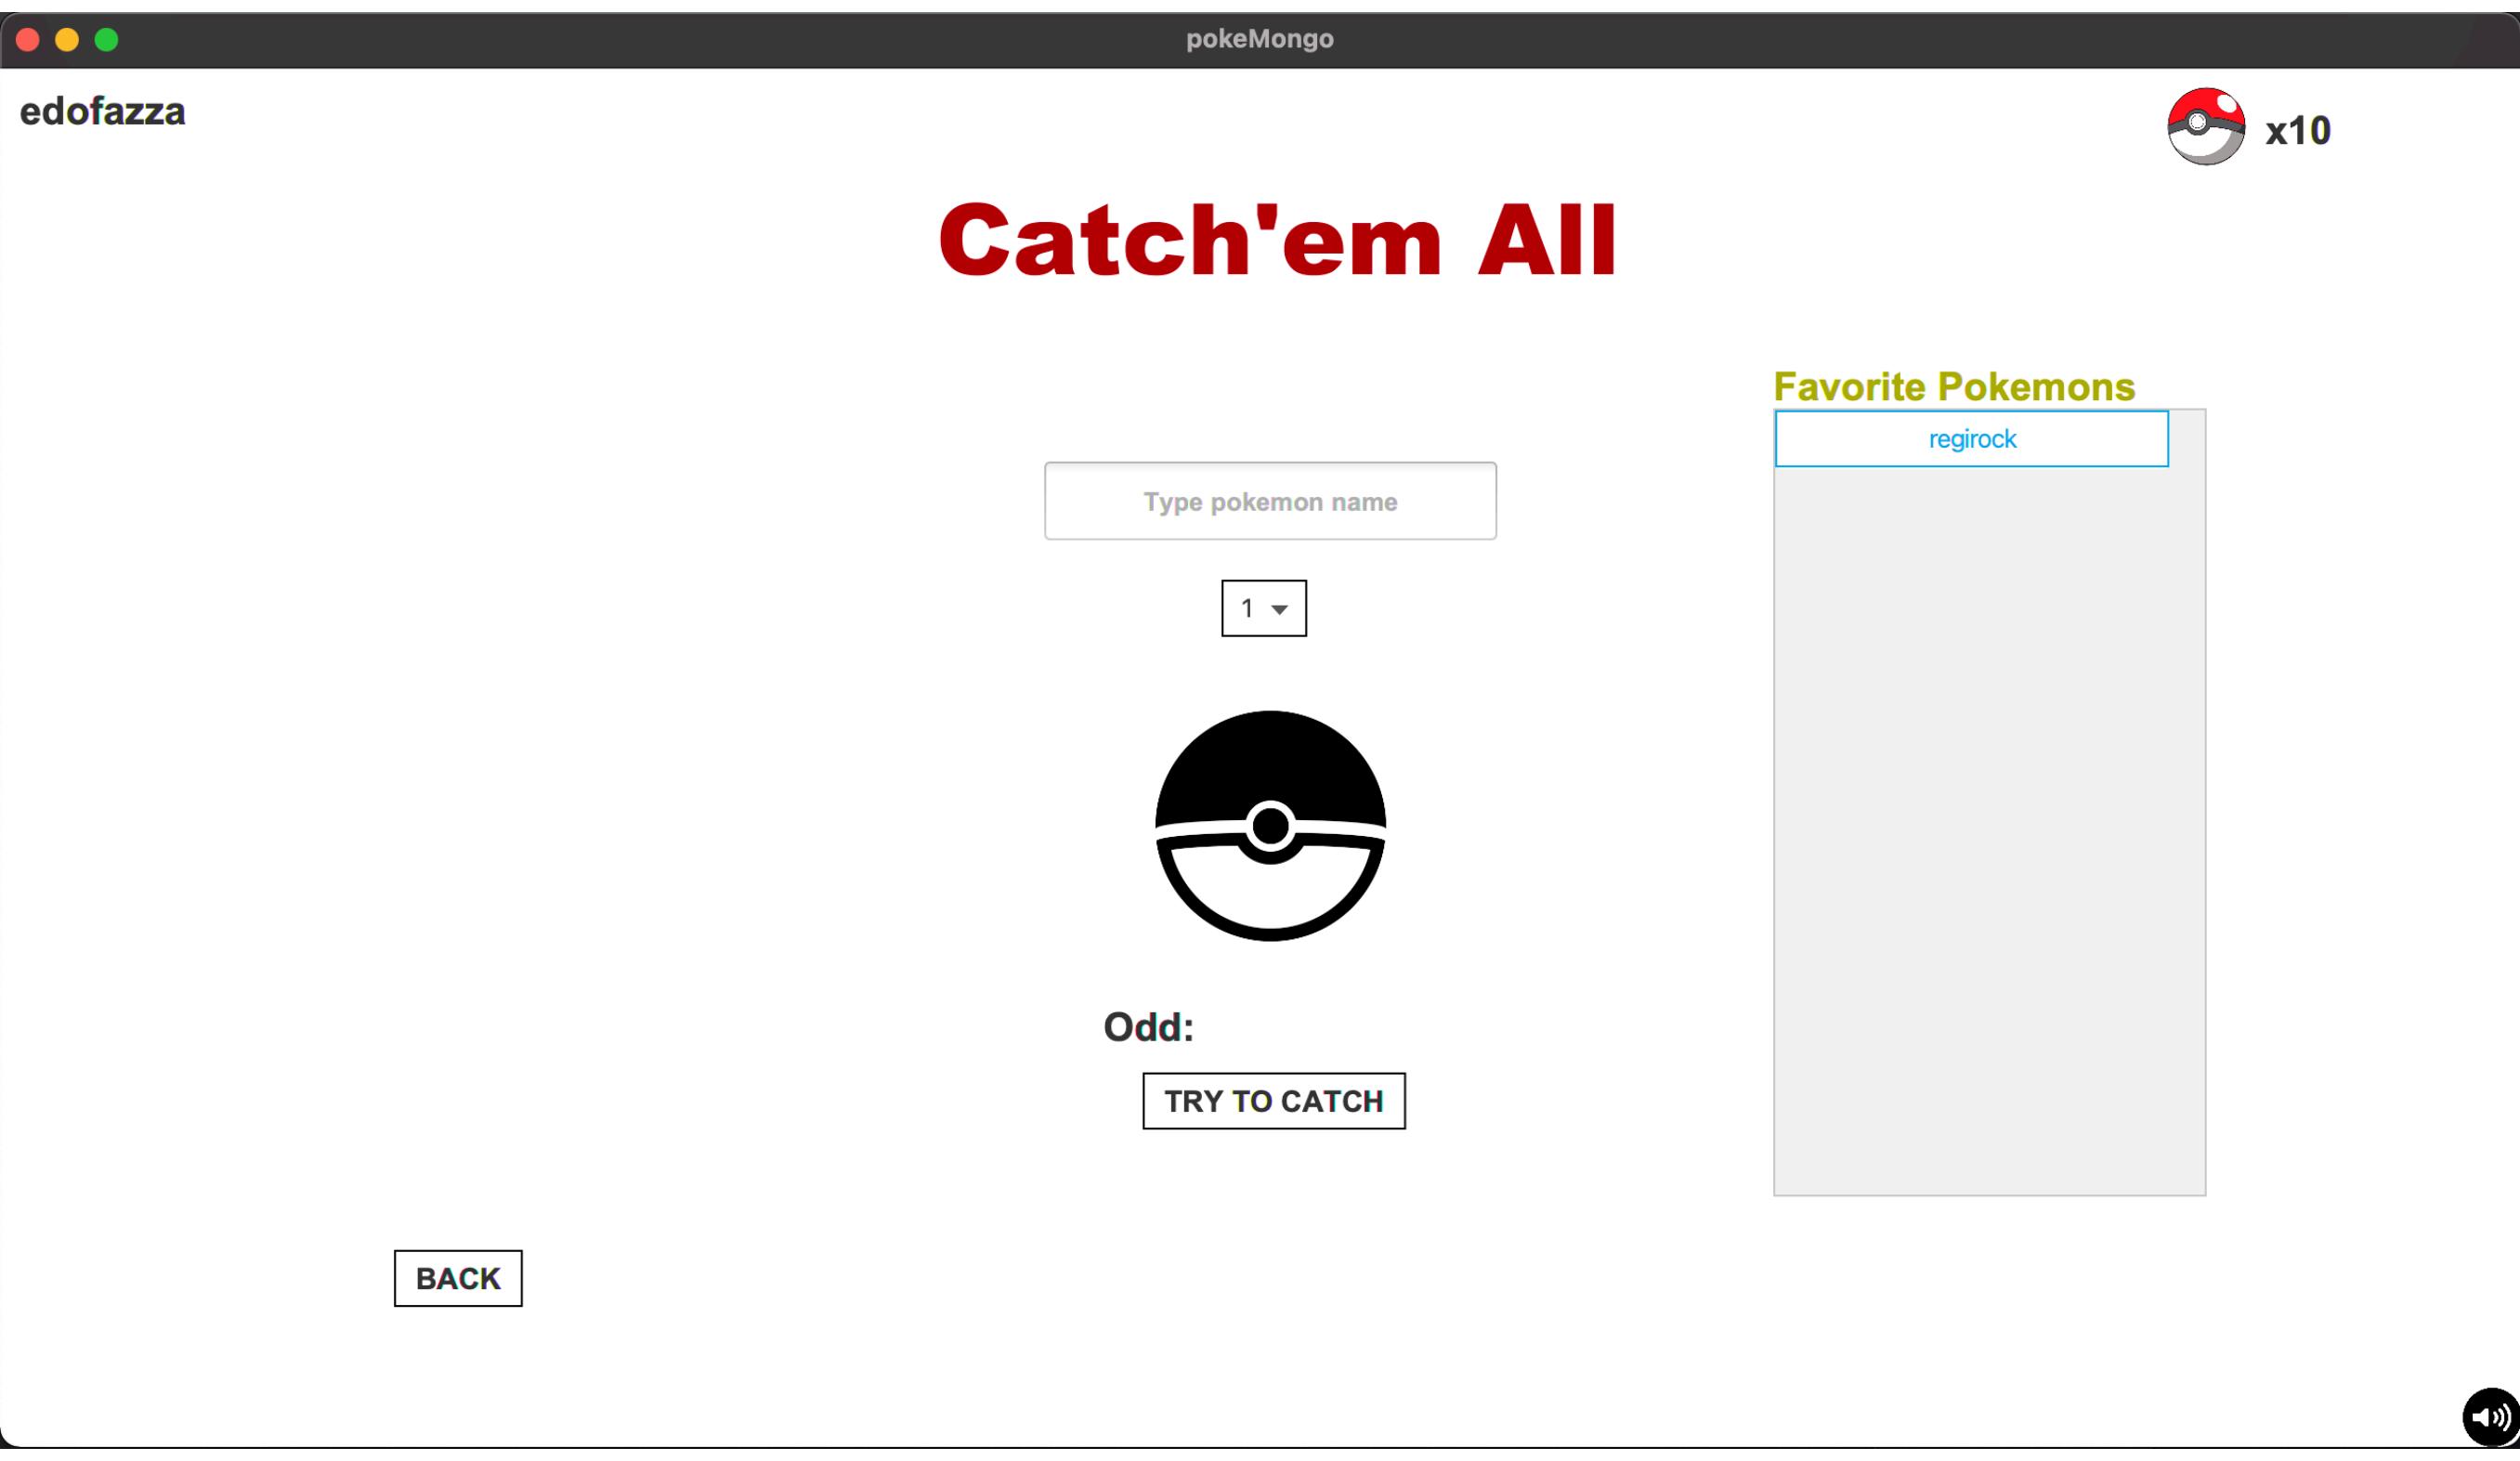

*Here your points will be displayed*

# TEAM

- The team page lets you handle your personal team.
- The trash button near the slot can eliminate the Pokemon from the team (don't worry! You won't kill it, you'll just free it)
- Any changes in the team should be save to completely store them in a persistent way, to do that click “SAVE”
- The “BACK” button will redirect you again to the homepage

# CATCH'EM ALL

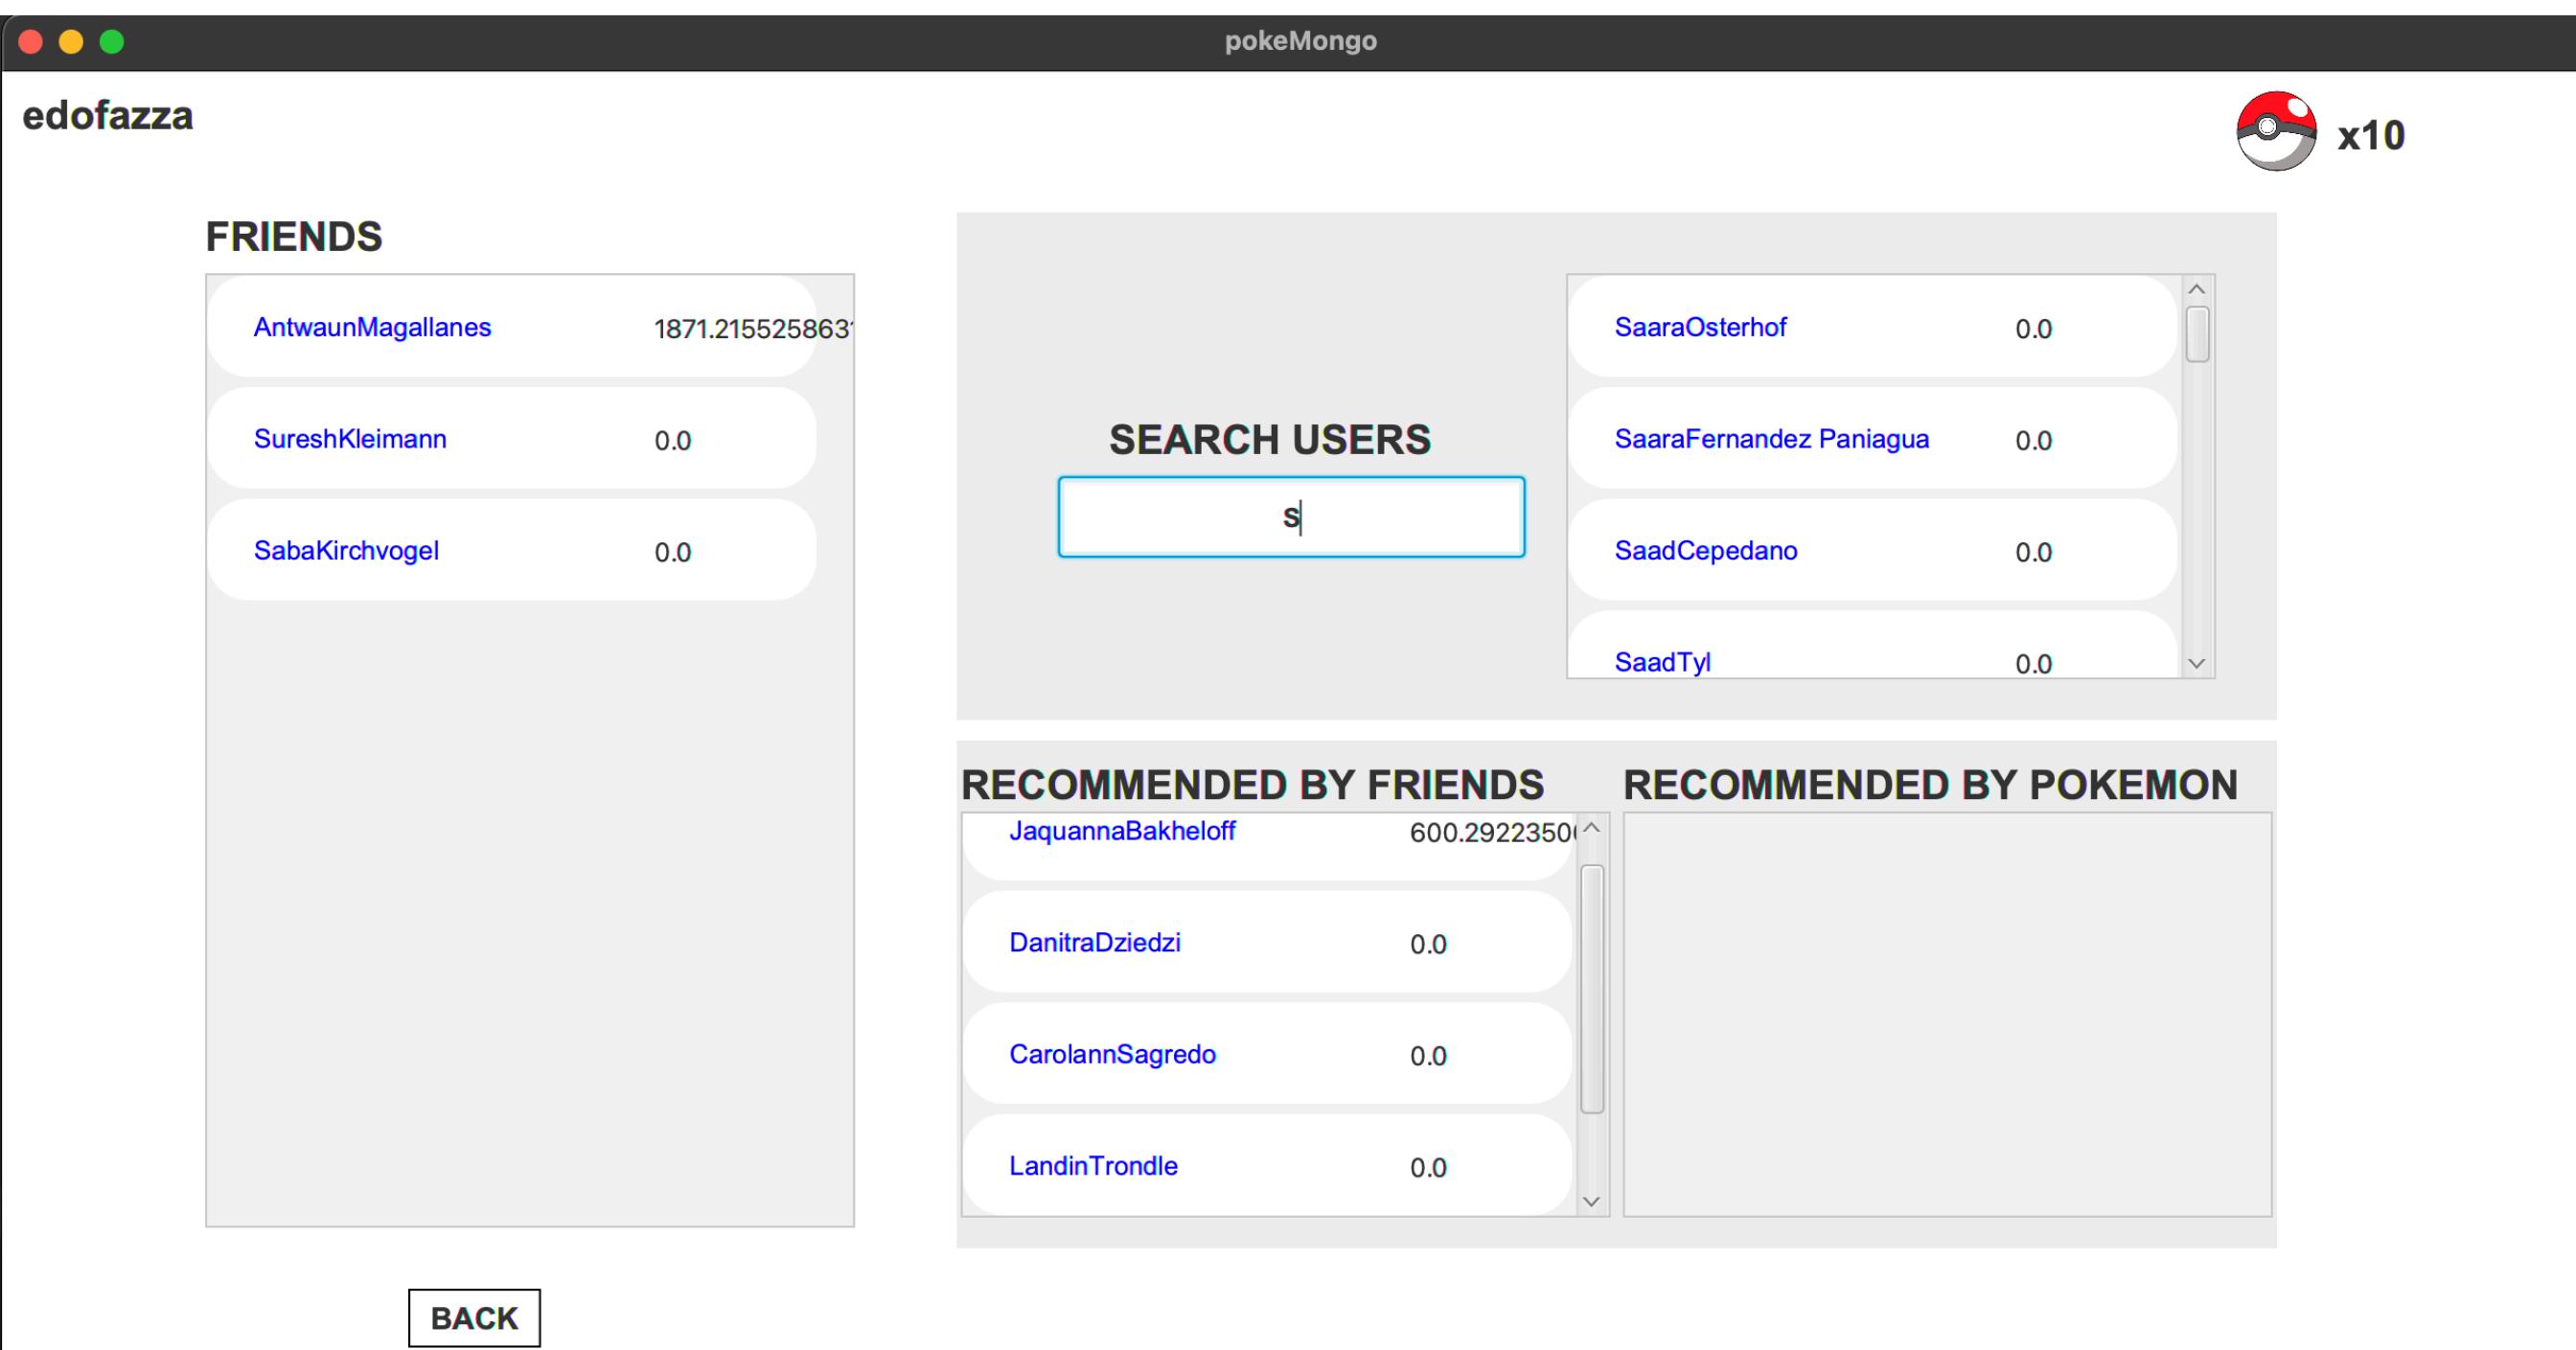

---

- Type the Pokemon name in thetextfield to have the possibility to catch it.
- If you input a correct name, the Pokemon portrait will display (only if you are connect to the internet, otherwise you will get only the odds).
- Click “TRY TO CATCH” to use one of your pokeballs and try to catch the pokemon selected. A label will tell you if the catch has succeeded.
- The Pane in the right will display all your favorite Pokemon, if you click the name it will fill automatically up the searchtextfield (sort of a shortcut)
- The button with a number is the slot in where the Pokemon, if captured, will be put.

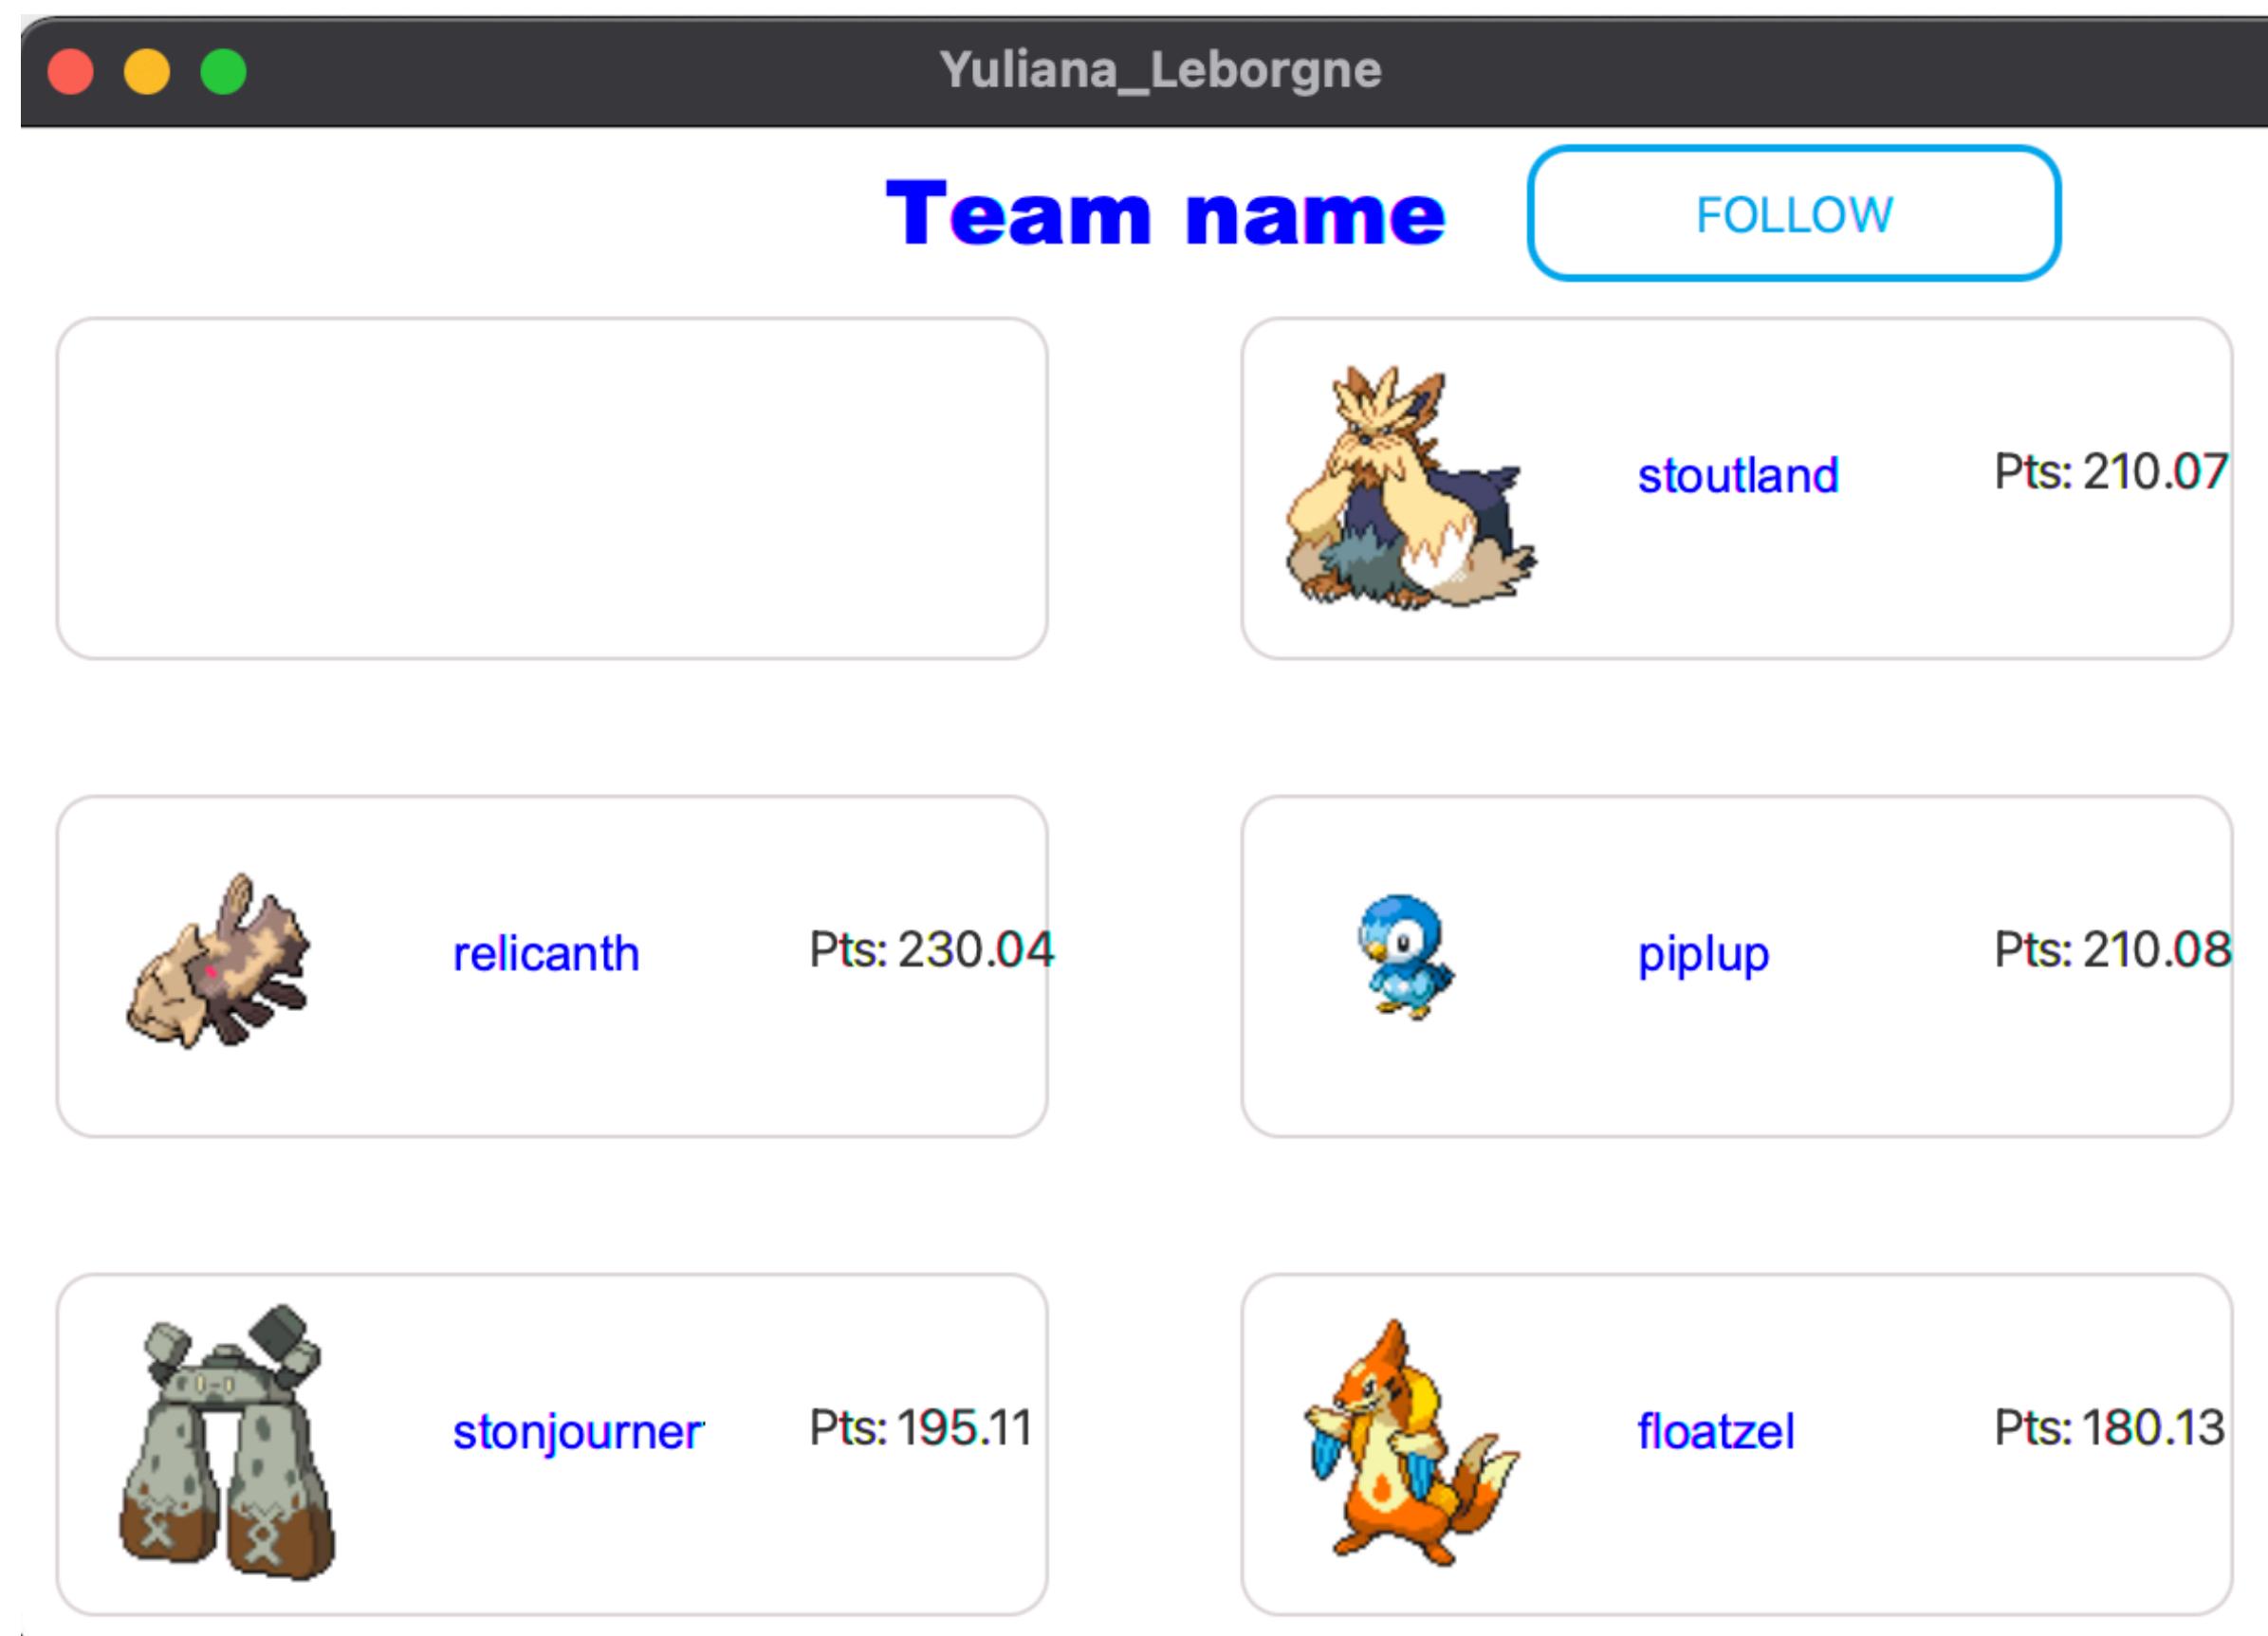

# FRIENDS

---

- The left pane will show you all your friends.
- For search a user, just enter the textfield the letters he/she starts with.
- “Recommended by friends” are the users that have at least one mutual friend with you.
- “Recommended by Pokemon” are the users that have at least one favorite Pokemon that you have too.
- If you click the username of a user, a window with his/her team will pop up.

## OTHER USERS WINDOW

- Here you can see the team of another user.
- The empty panes indicates slot without Pokemons.
- You can click on a Pokemon name to display its page.
- You can follow a user by clicking the “FOLLOW” button.
- You can unfollow a user by clicking the “UNFOLLOW” button.

*Click here to select the country*

The screenshot shows the pokeMongo application interface. At the top, it displays the user's name "edofazza" and a Poké Ball icon with "x10". Below the header, there are three main ranking sections:

- MOST USED POKEMON**: A list of six Pokémon with their names and counts:
  - lileep (Held by: 305)
  - smeargle (Held by: 297)
  - shelgon (Held by: 296)
  - terrakion (Held by: 293)
  - carnivine (Held by: 293)
  - heracross (Held by: 293)
- BEST TEAM**: A list of seven users with their scores:
  - AntwaunMagallanes (1871.22)
  - MasonFuehrmann (1185.59)
  - RosendaMeisel (1037.41)
  - ShavaughnPopovici (1027.41)
  - YulianaLeborgne (1025.43)
  - ValorieEngelschall (1010.44)
- FRIENDS**: A list of three friends with their scores:
  - AntwaunMagallanes (1871.22)
  - SureshKleimann (0.0)
  - SabaKirchvogel (0.0)

A large grey arrow points downwards towards the country selection dropdown.

# RANKING

- Here are displayed all types of ranking.
- If the choice box doesn't display any country name, then you are looking to the World Ranking.
- If you change country the “most used pokemon” and the “best team” ranking will change based on the country selected.

# SETTINGS

---

The screenshot shows the settings screen of the pokeMongo app. At the top, there are three colored dots (red, yellow, green) and the user name "edofazza". The title "pokeMongo" is displayed above a progress bar. To the right of the progress bar is a Poké Ball icon with the text "x10". Below the header, there are four input fields arranged in a 2x2 grid:

New Email	Confirm Email
<input type="text"/>	<input type="text"/>
Old Password*	New Password
<input type="password"/>	<input type="password"/>
Confirm Password	Country
<input type="password"/>	<input type="text"/>

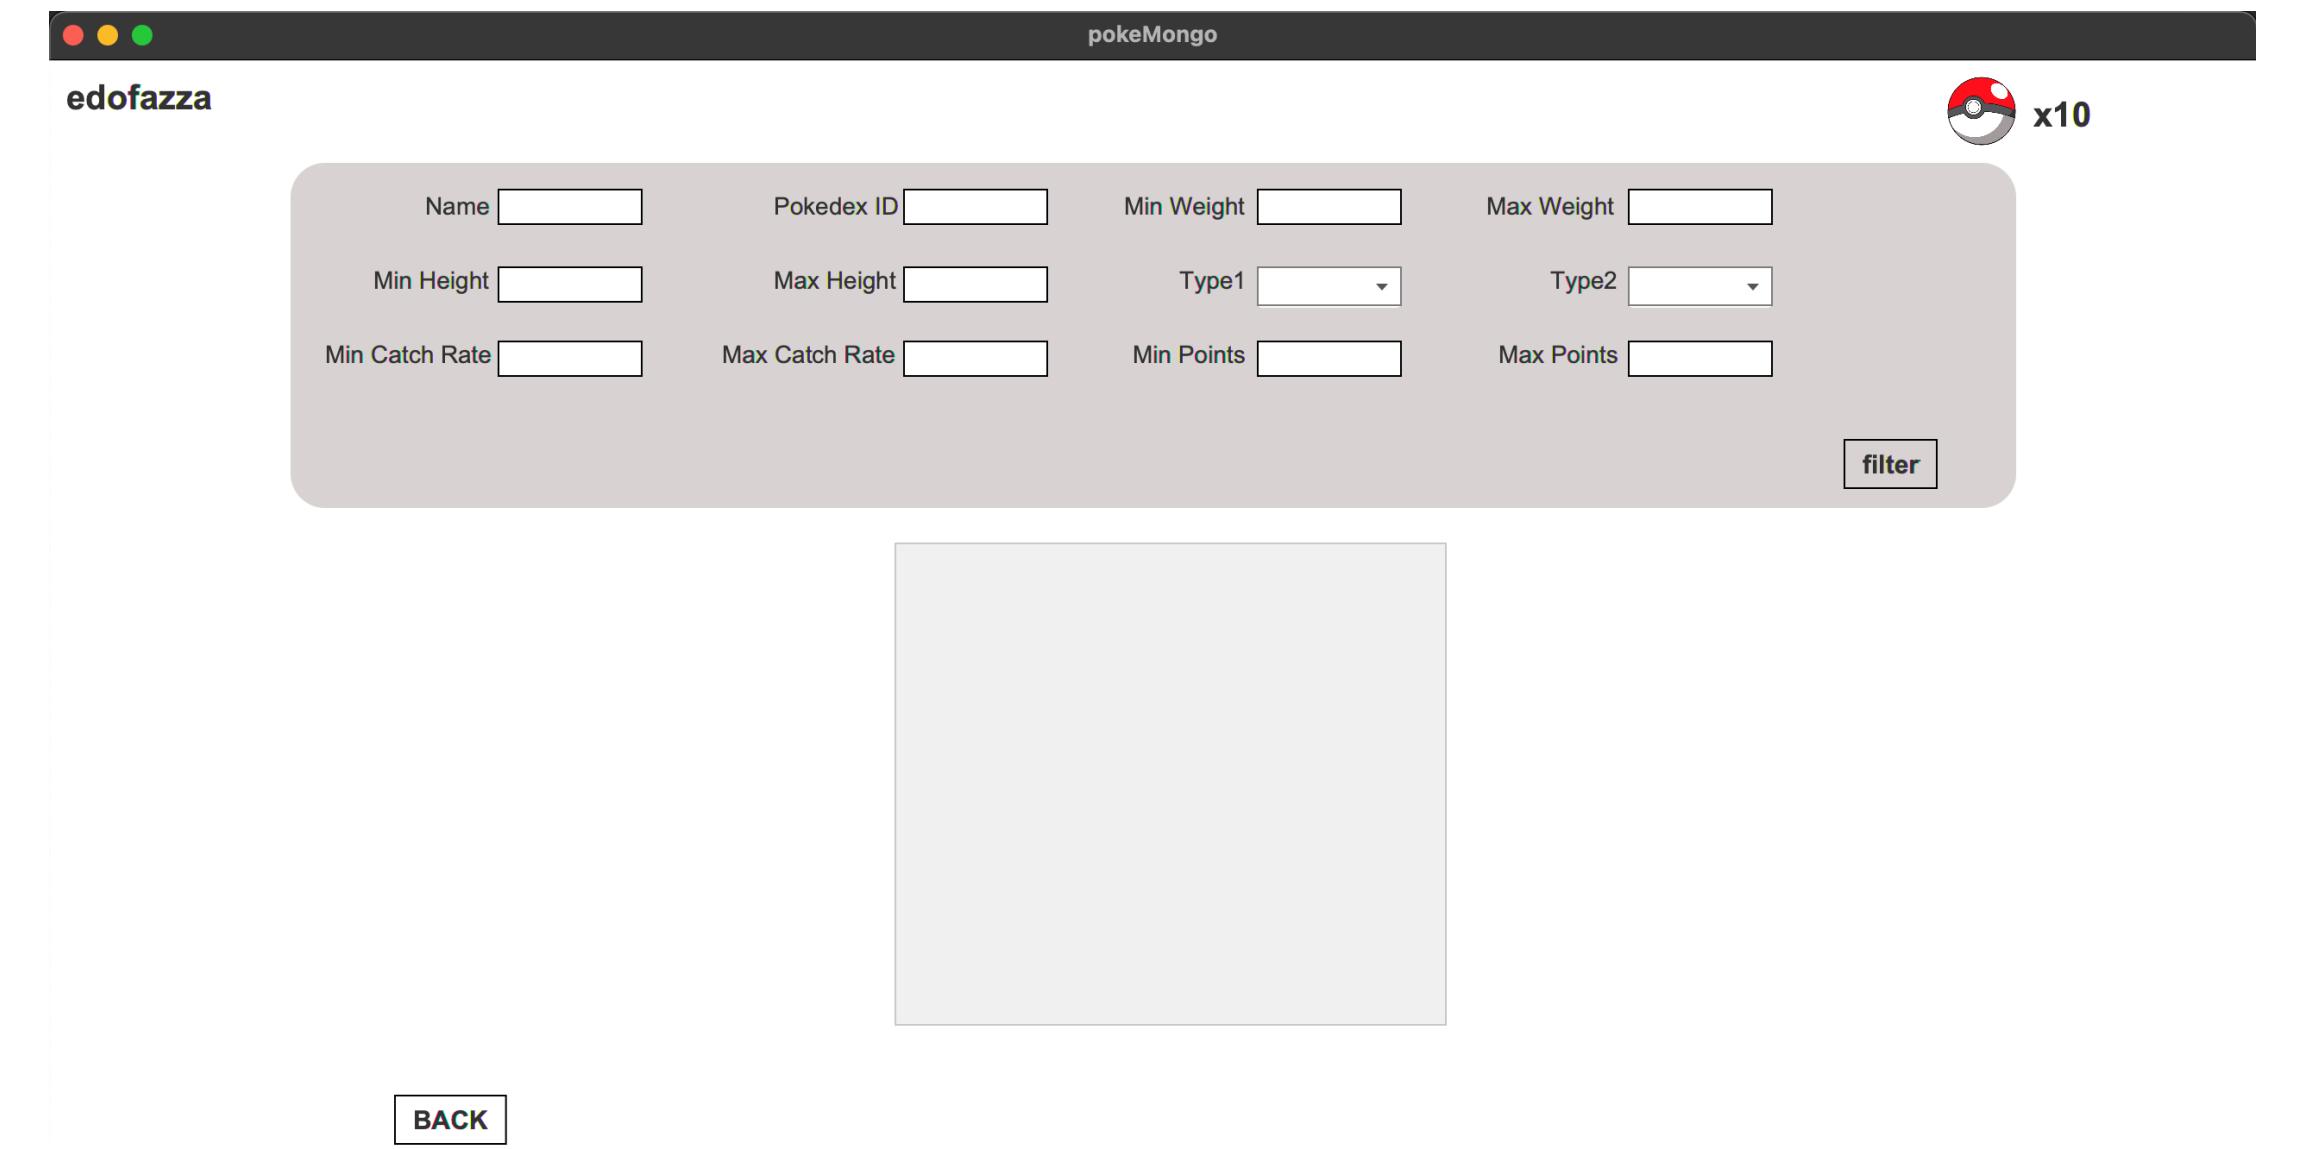

At the bottom left is a "BACK" button, and at the bottom center is a "CONFIRM" button. A speaker icon is located at the bottom right.

- Change only the fields that you are interested. You can modify one or more fields.
- To confirm the changes click “CONFIRM”
- You must type your old password (or current password, if you don't want to modify it) to confirm the changes.

# ADDITIONAL USEFUL INFORMATION

---

A screenshot of the pokeMongo search interface showing search results. At the top, the header "pokeMongo" and user "edofazza" are visible, along with a red circle containing a white speaker icon in the top right corner. The search form is identical to the one above. Below the form, a list of pokémon entries is shown in a scrollable table:

	diglett	Pokedex ID: 50
	koffing	Pokedex ID: 109
	igglybuff	Pokedex ID: 174
	hoppip	Pokedex ID: 187
	skiploom	Pokedex ID: 188

A "BACK" button is located at the bottom left, and a small speaker icon is at the bottom center.

# TURN THE MUSIC ON/OFF

- Every single page has a different song, but sometimes you may want to play in quiet. Don't worry, I have the solution for you.
- In the right bottom corner, you can see a circle with a white audio symbol in it. Just click it to turn the music on or off.
- If the circle color is black it means that the music is on. On the other hand a red circle means the the music is currently off.
