

POKEMONGO: A QUICK USER GUIDE

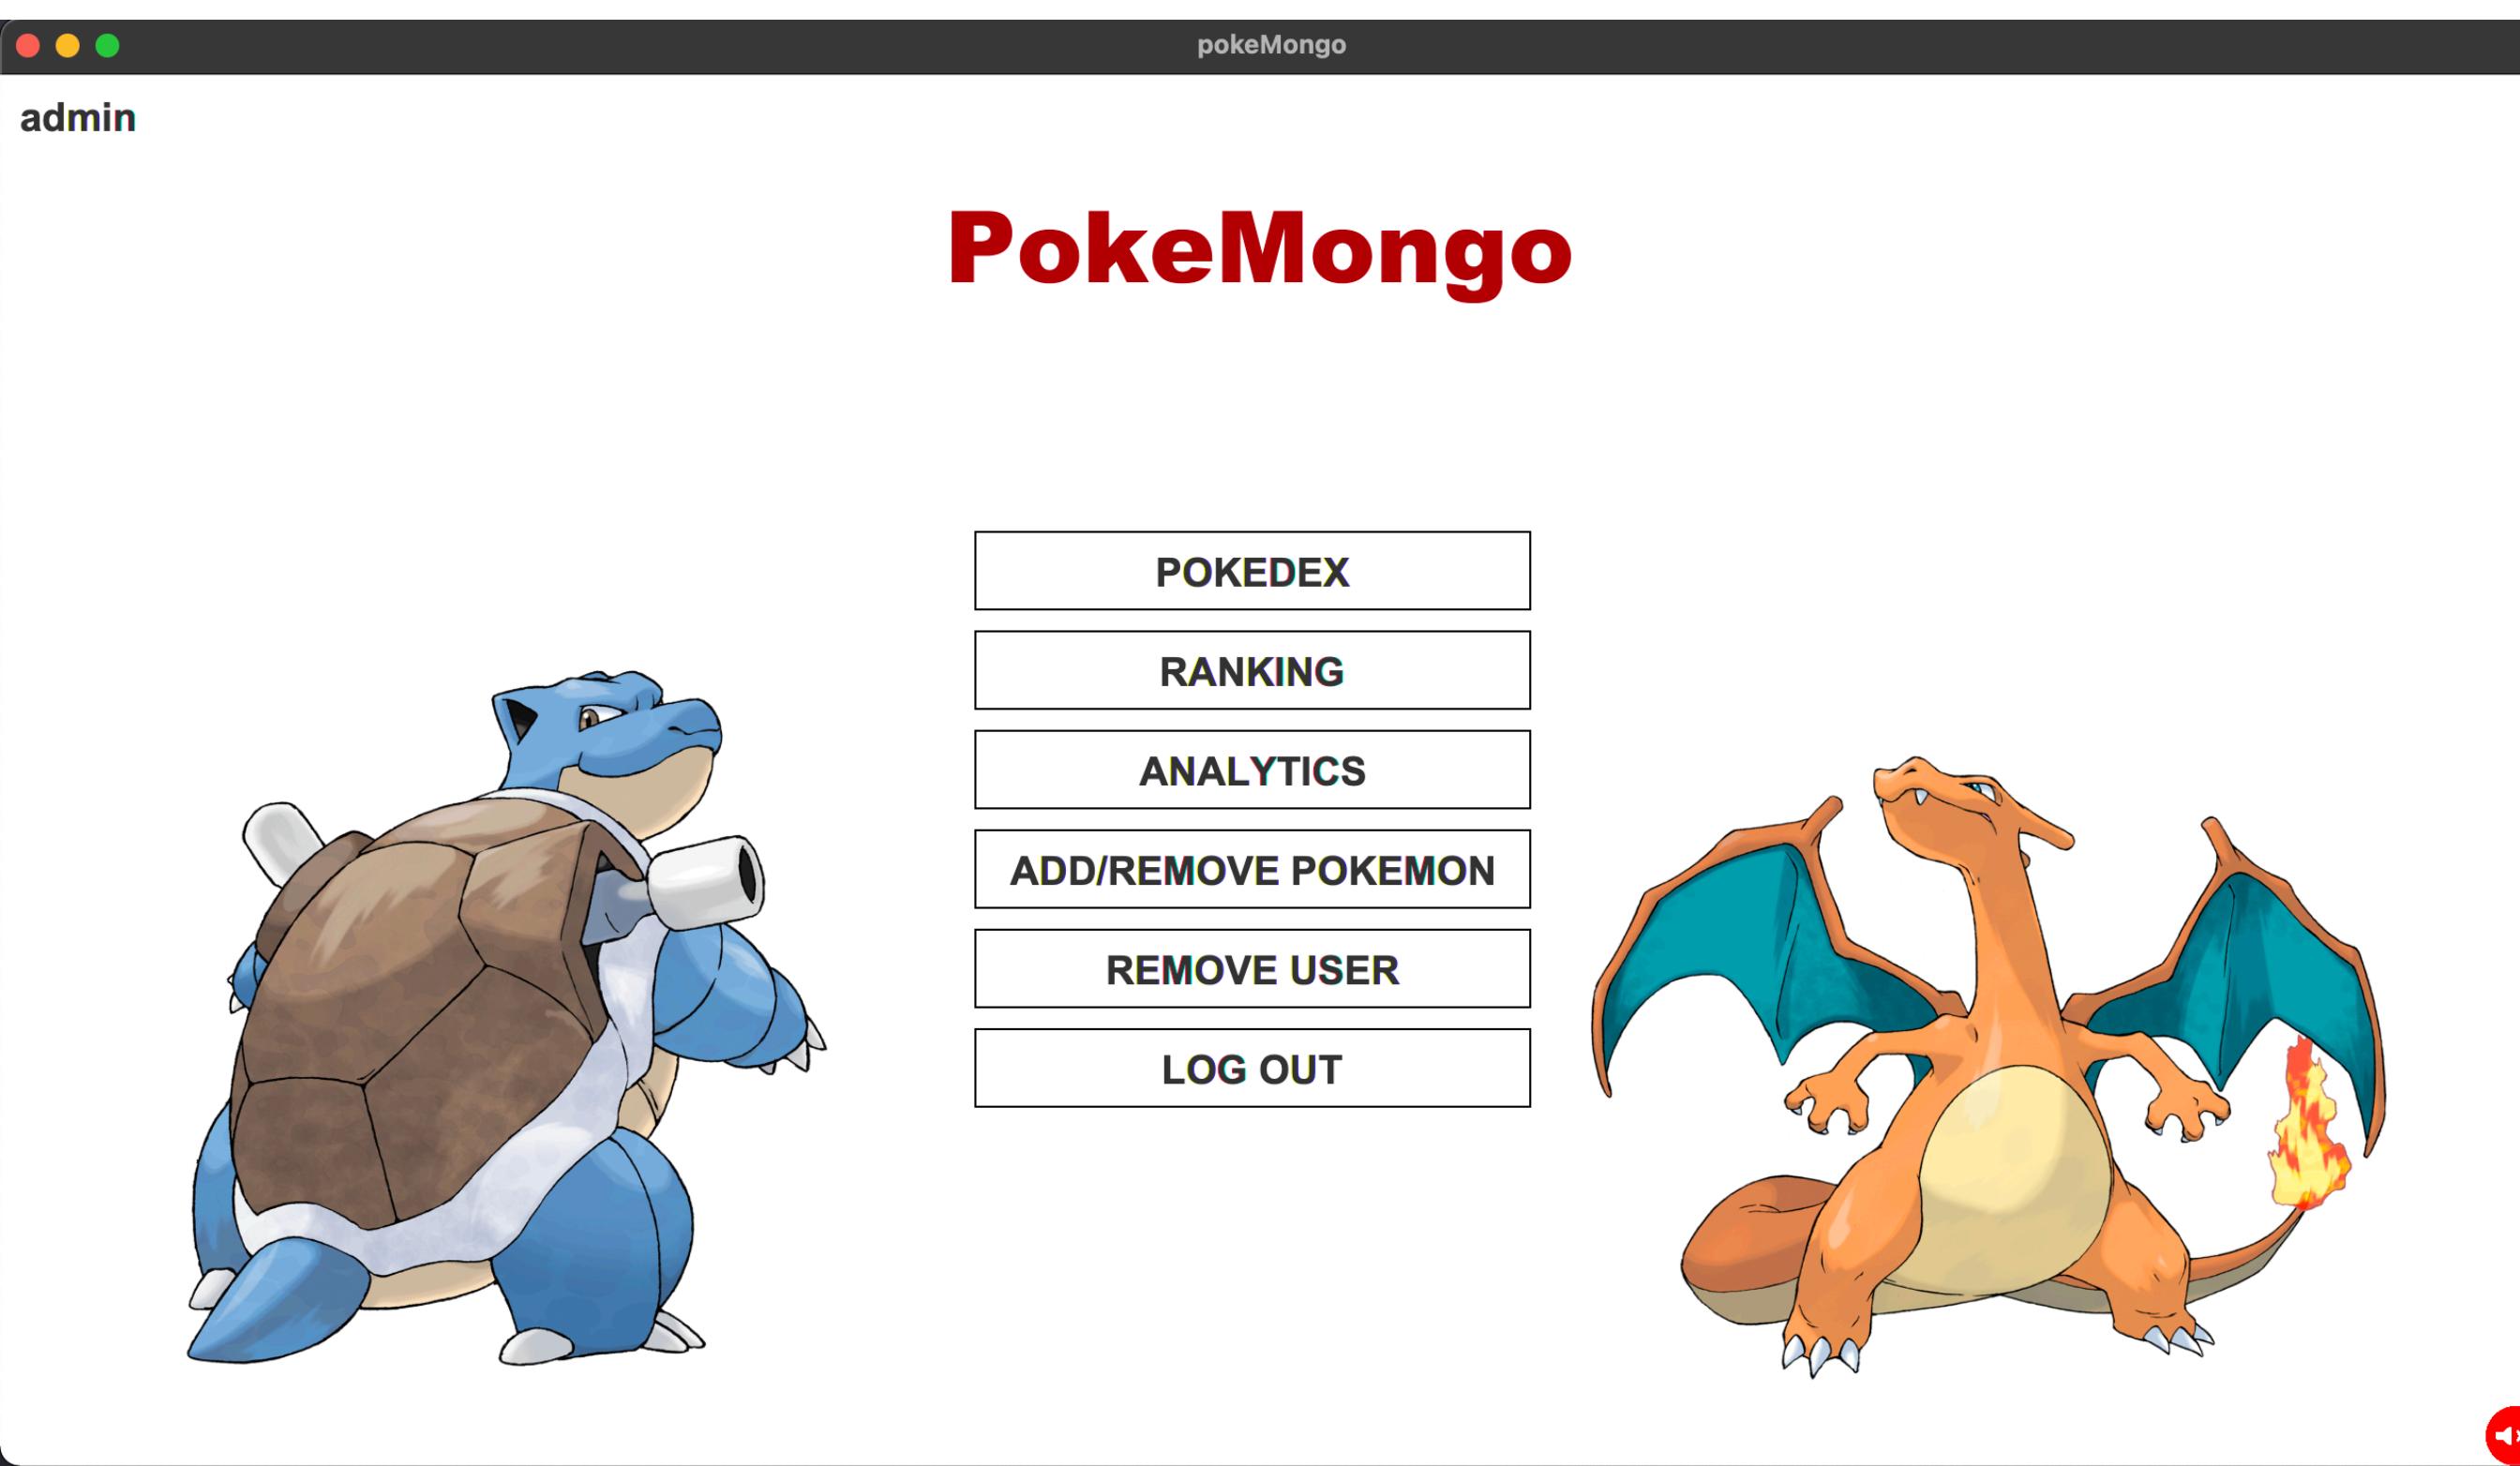

Developers: Edoardo Fazzari, Mirco Ramo, Olgerti Xhanej

LOG IN

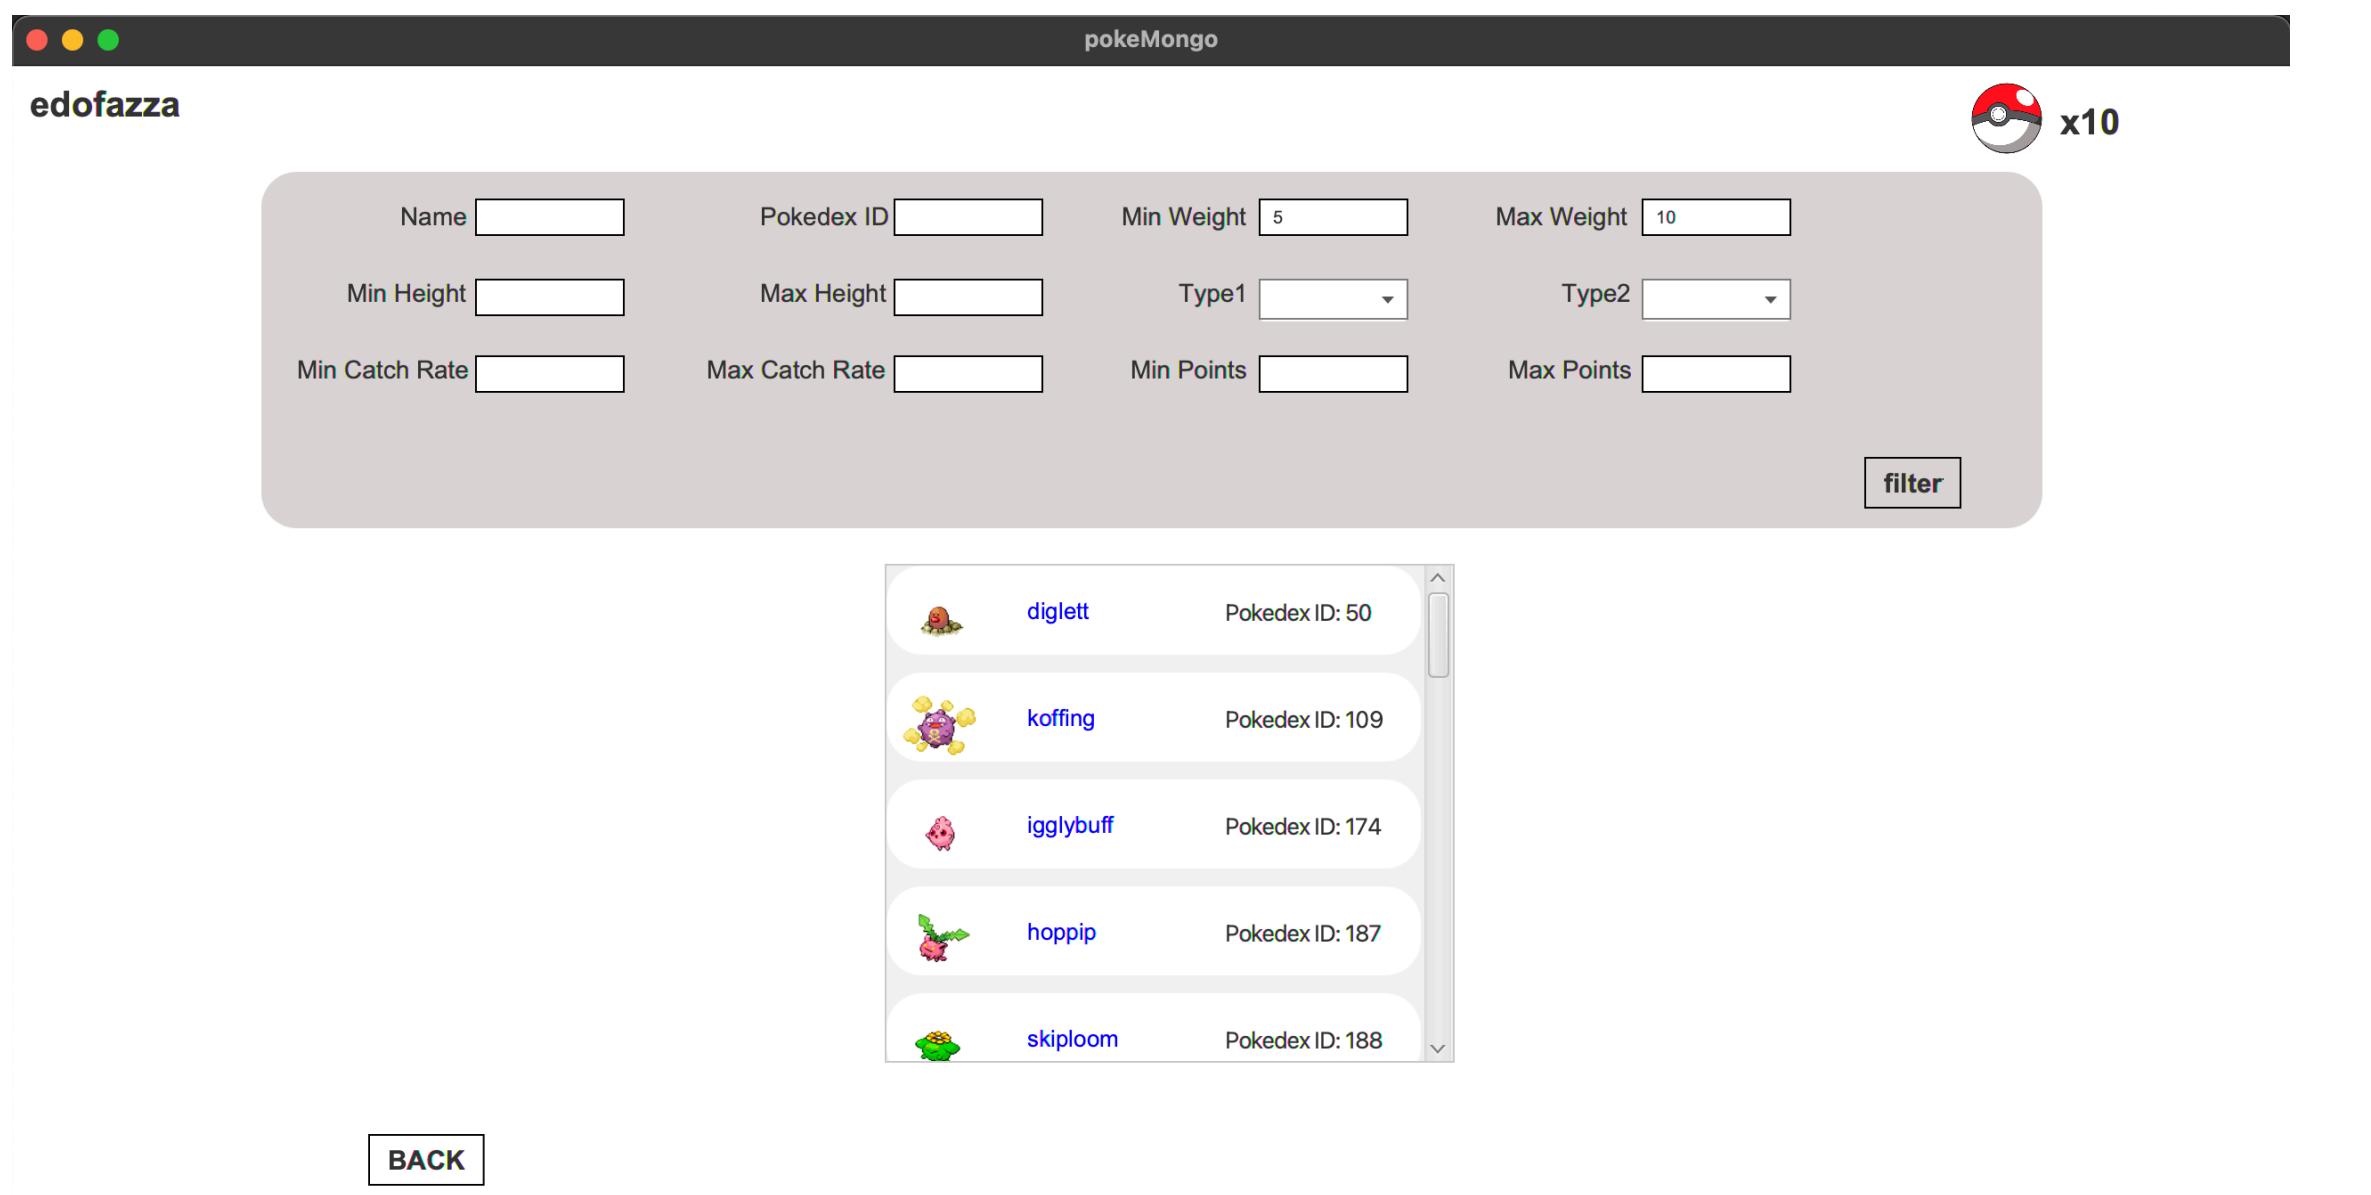

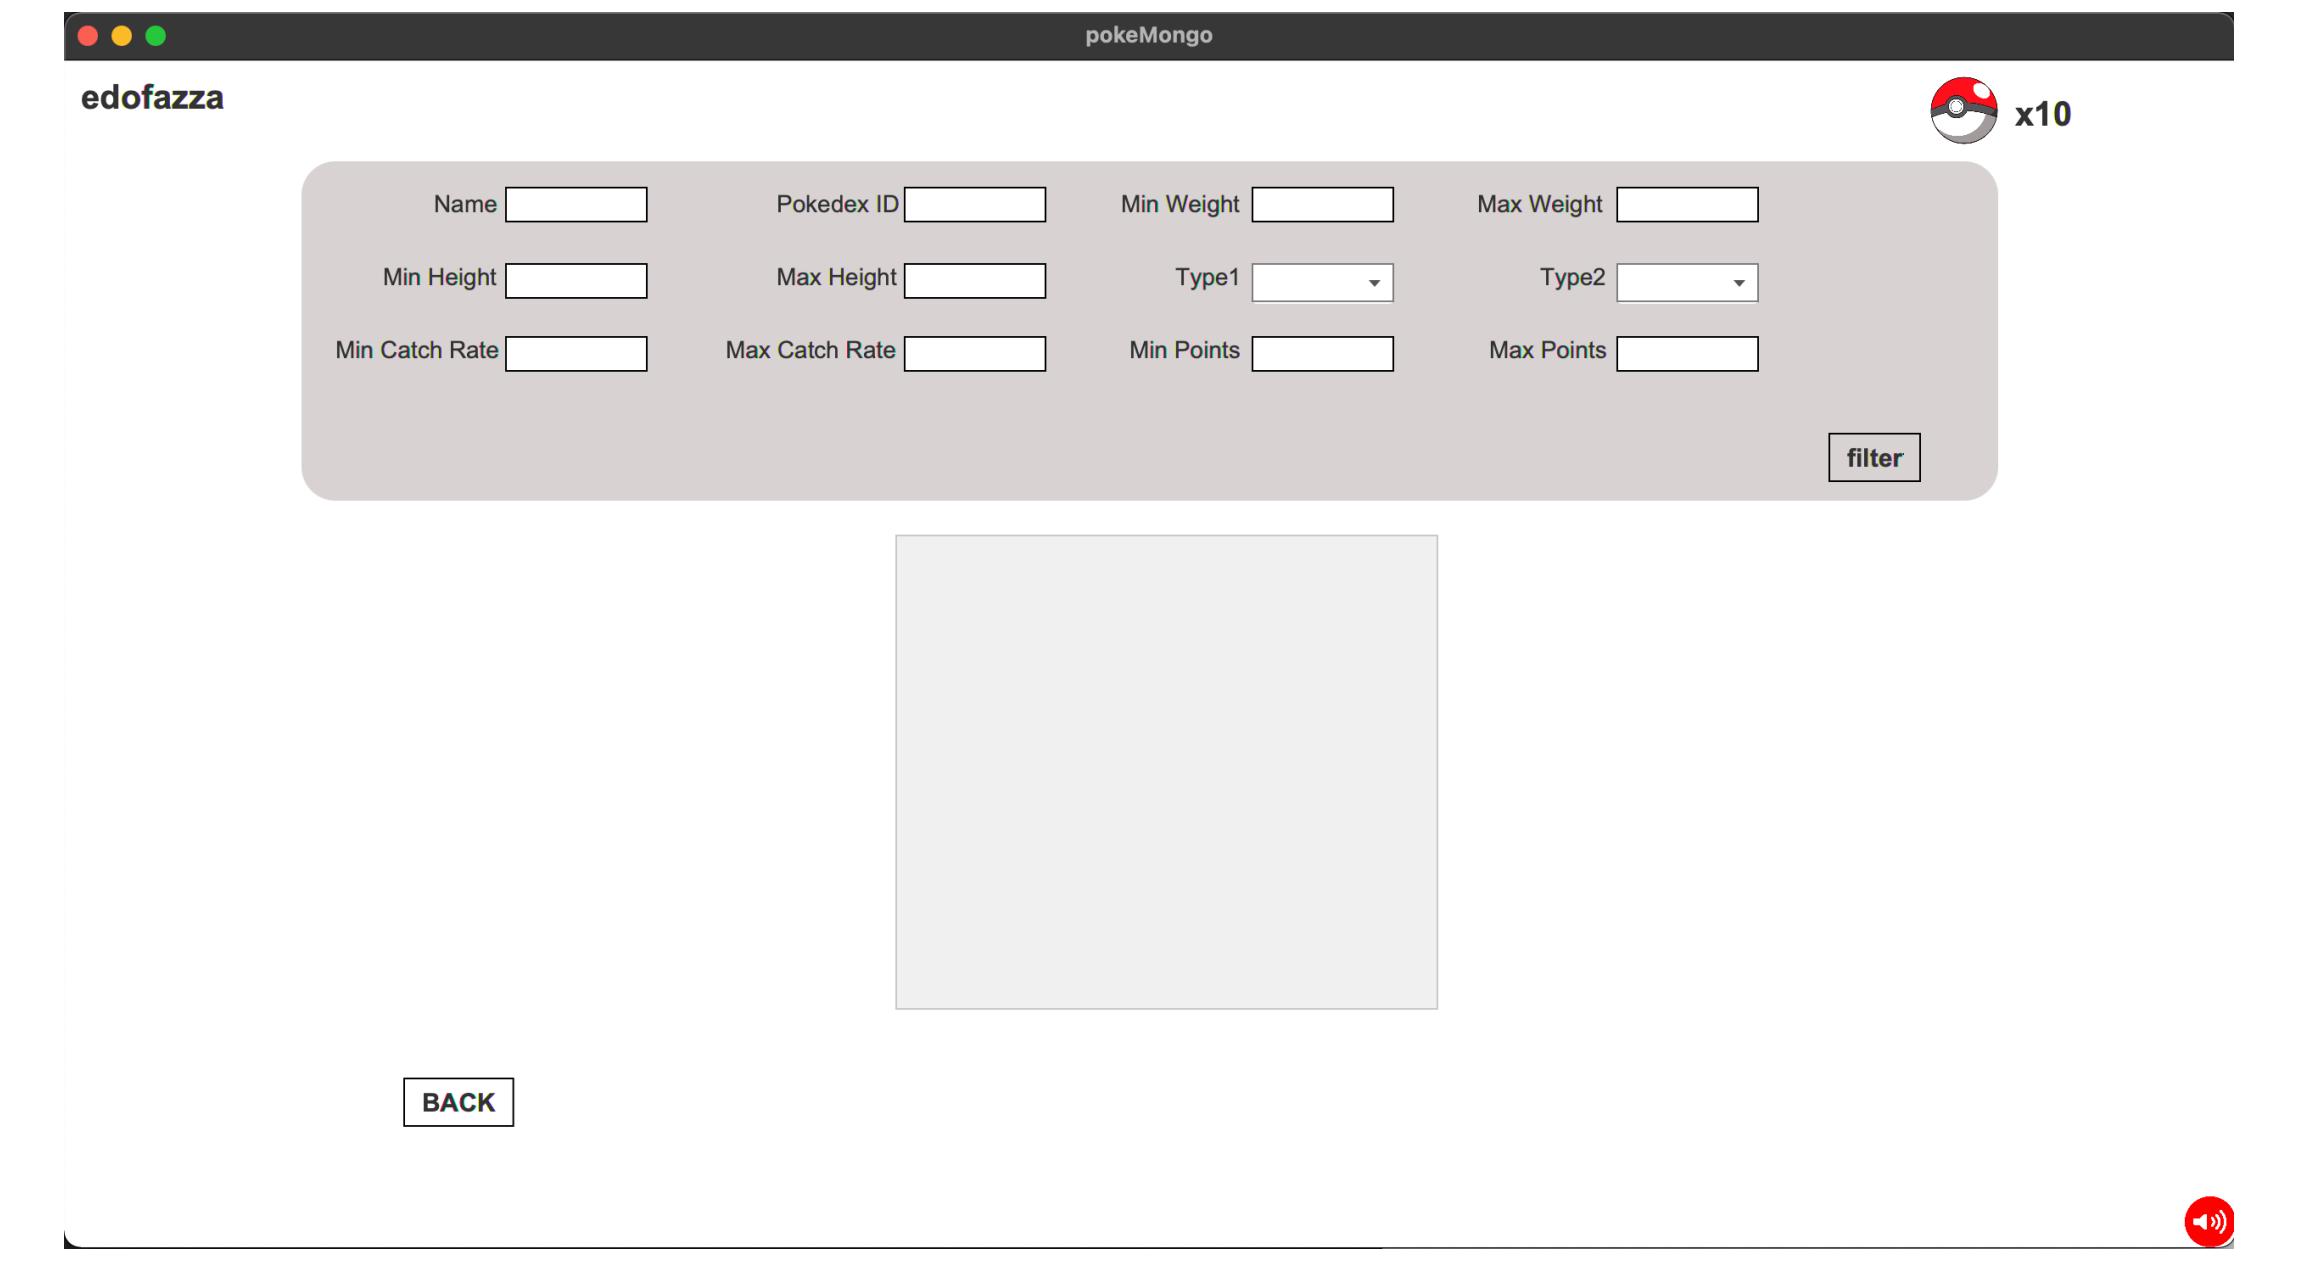

- This is the first window the application show.
- Fill the textfields if you have an account, then click “LOG IN” for signing in your account.
- Otherwise, click “SIGN UP” to register. The registration is only for normal user, you will not be an admin!

Homepage

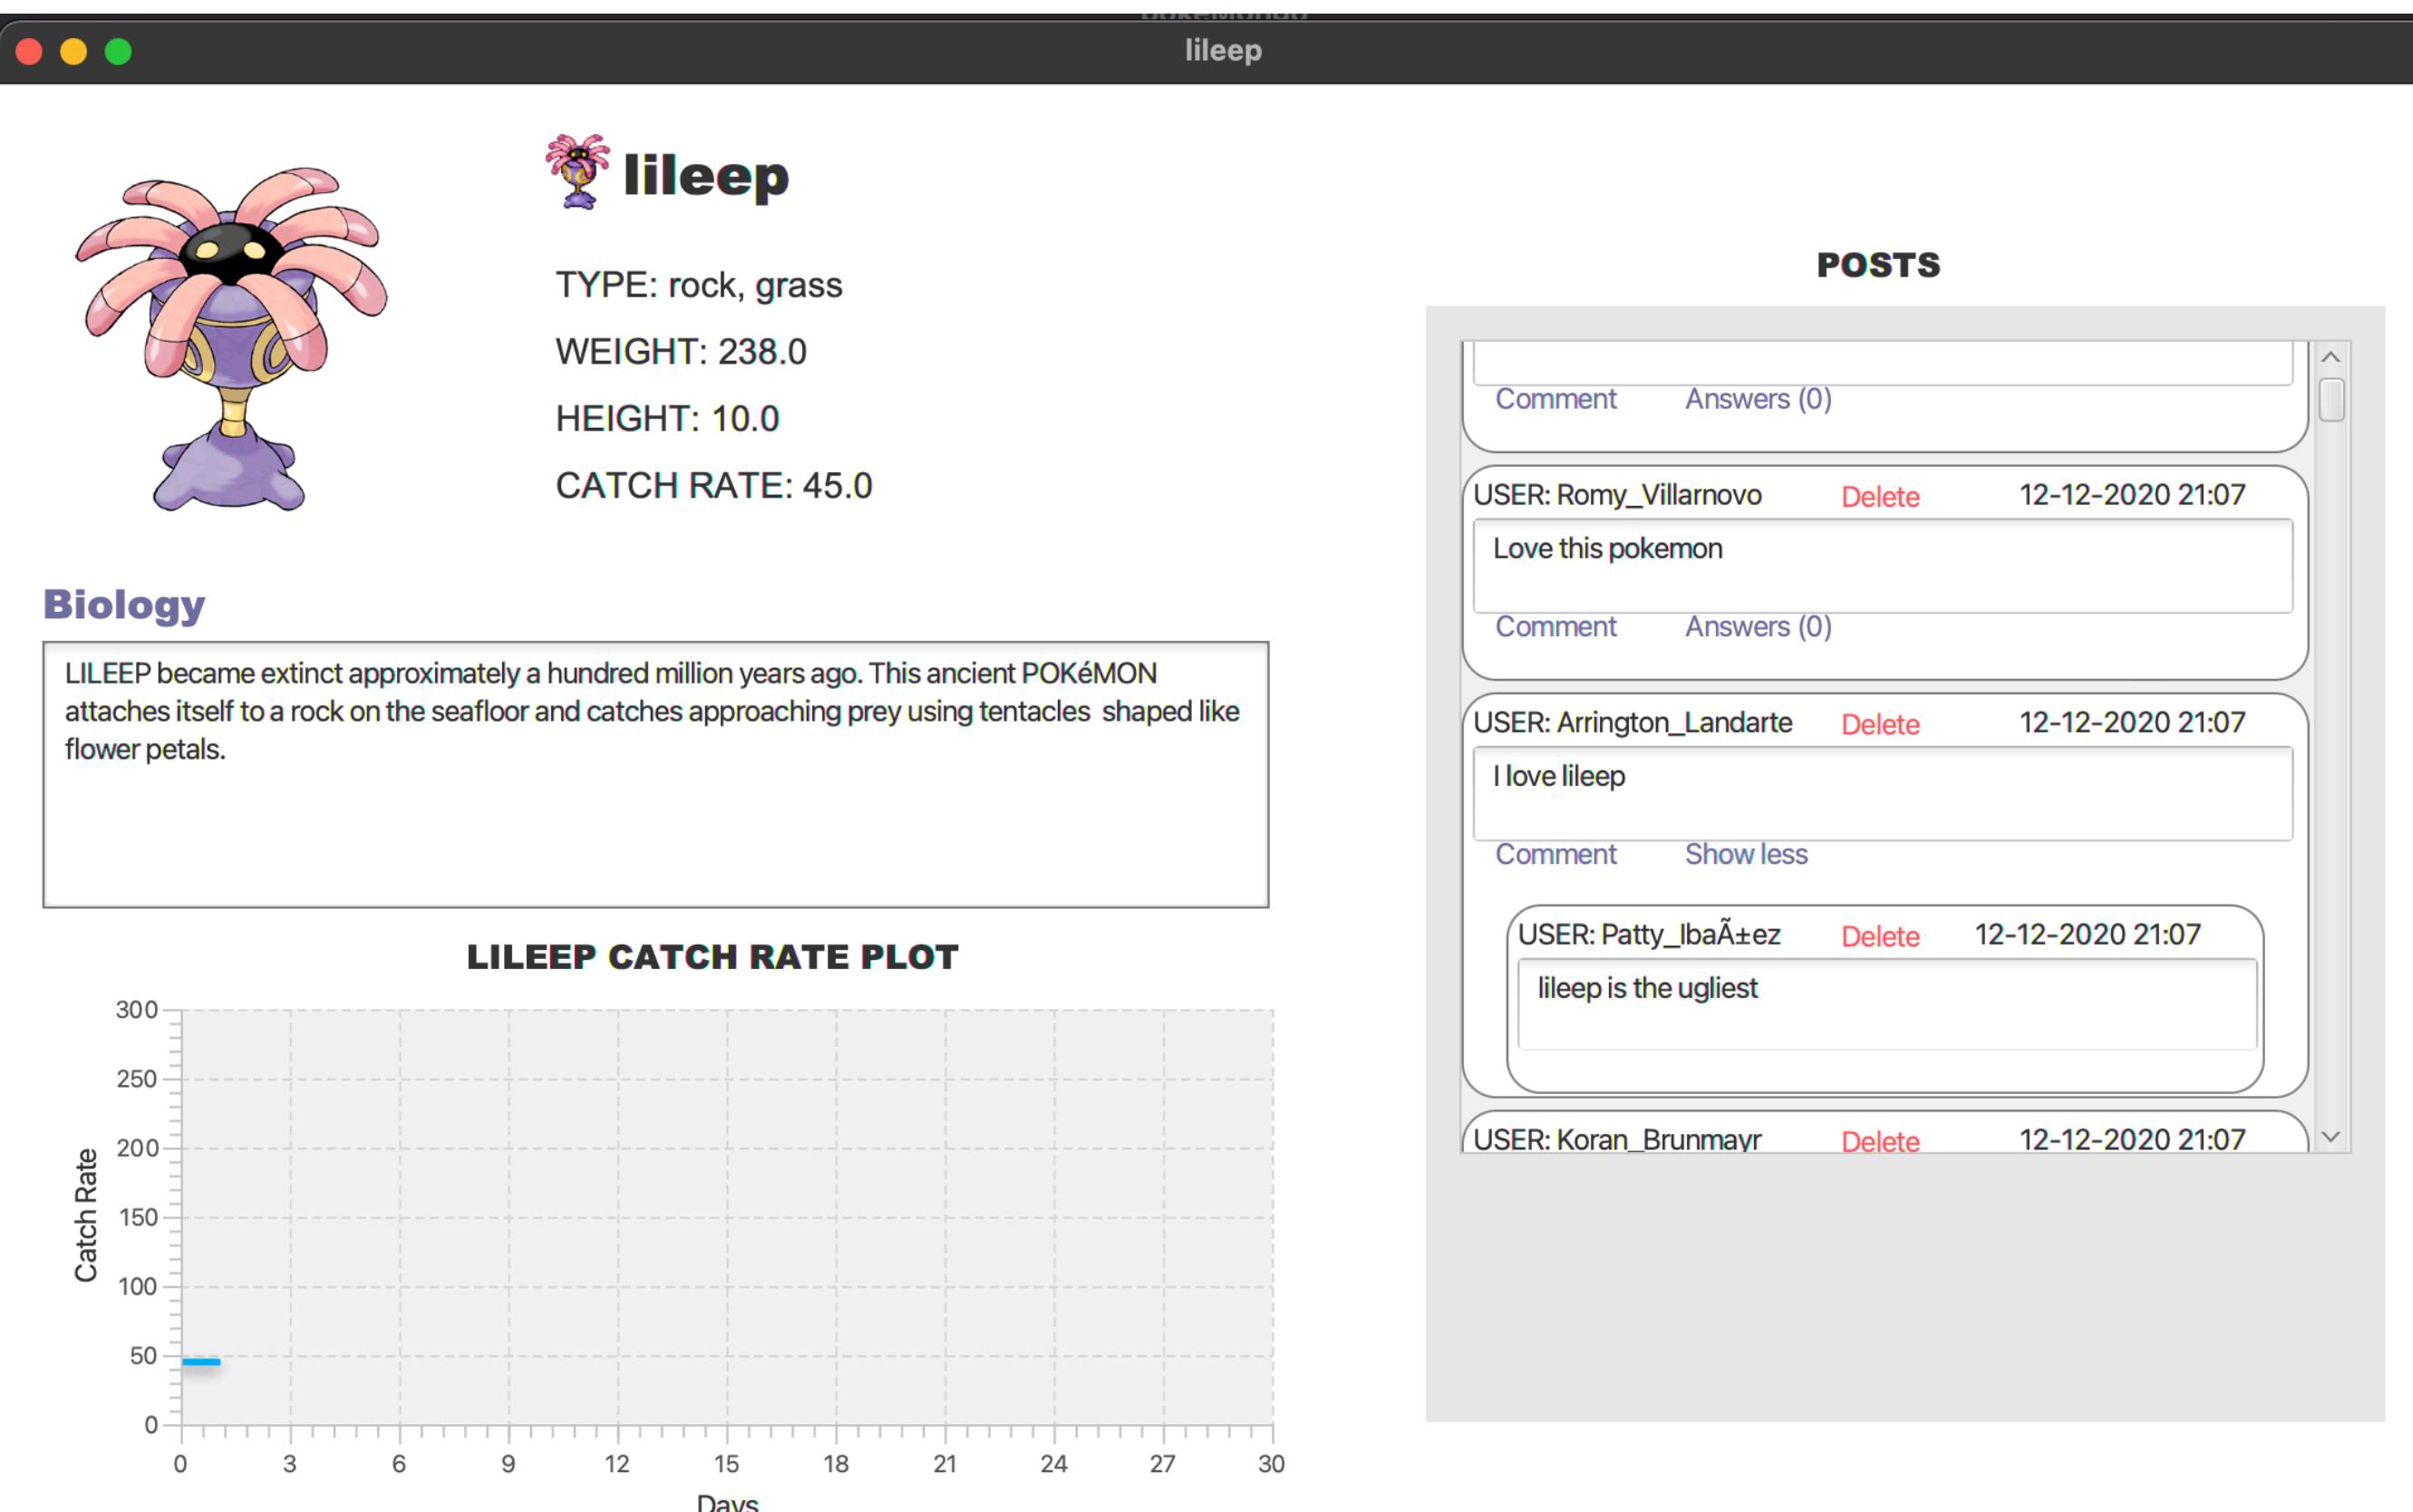

- After you log in, you will be redirect to the homepage.
- Click the buttons to display what that suggest (i.e. if you click Pokedex, you will see your pokedex)
- The “LOG OUT” button will log you out from the account. You will be redirect to the LOG IN page.

POKEDEX

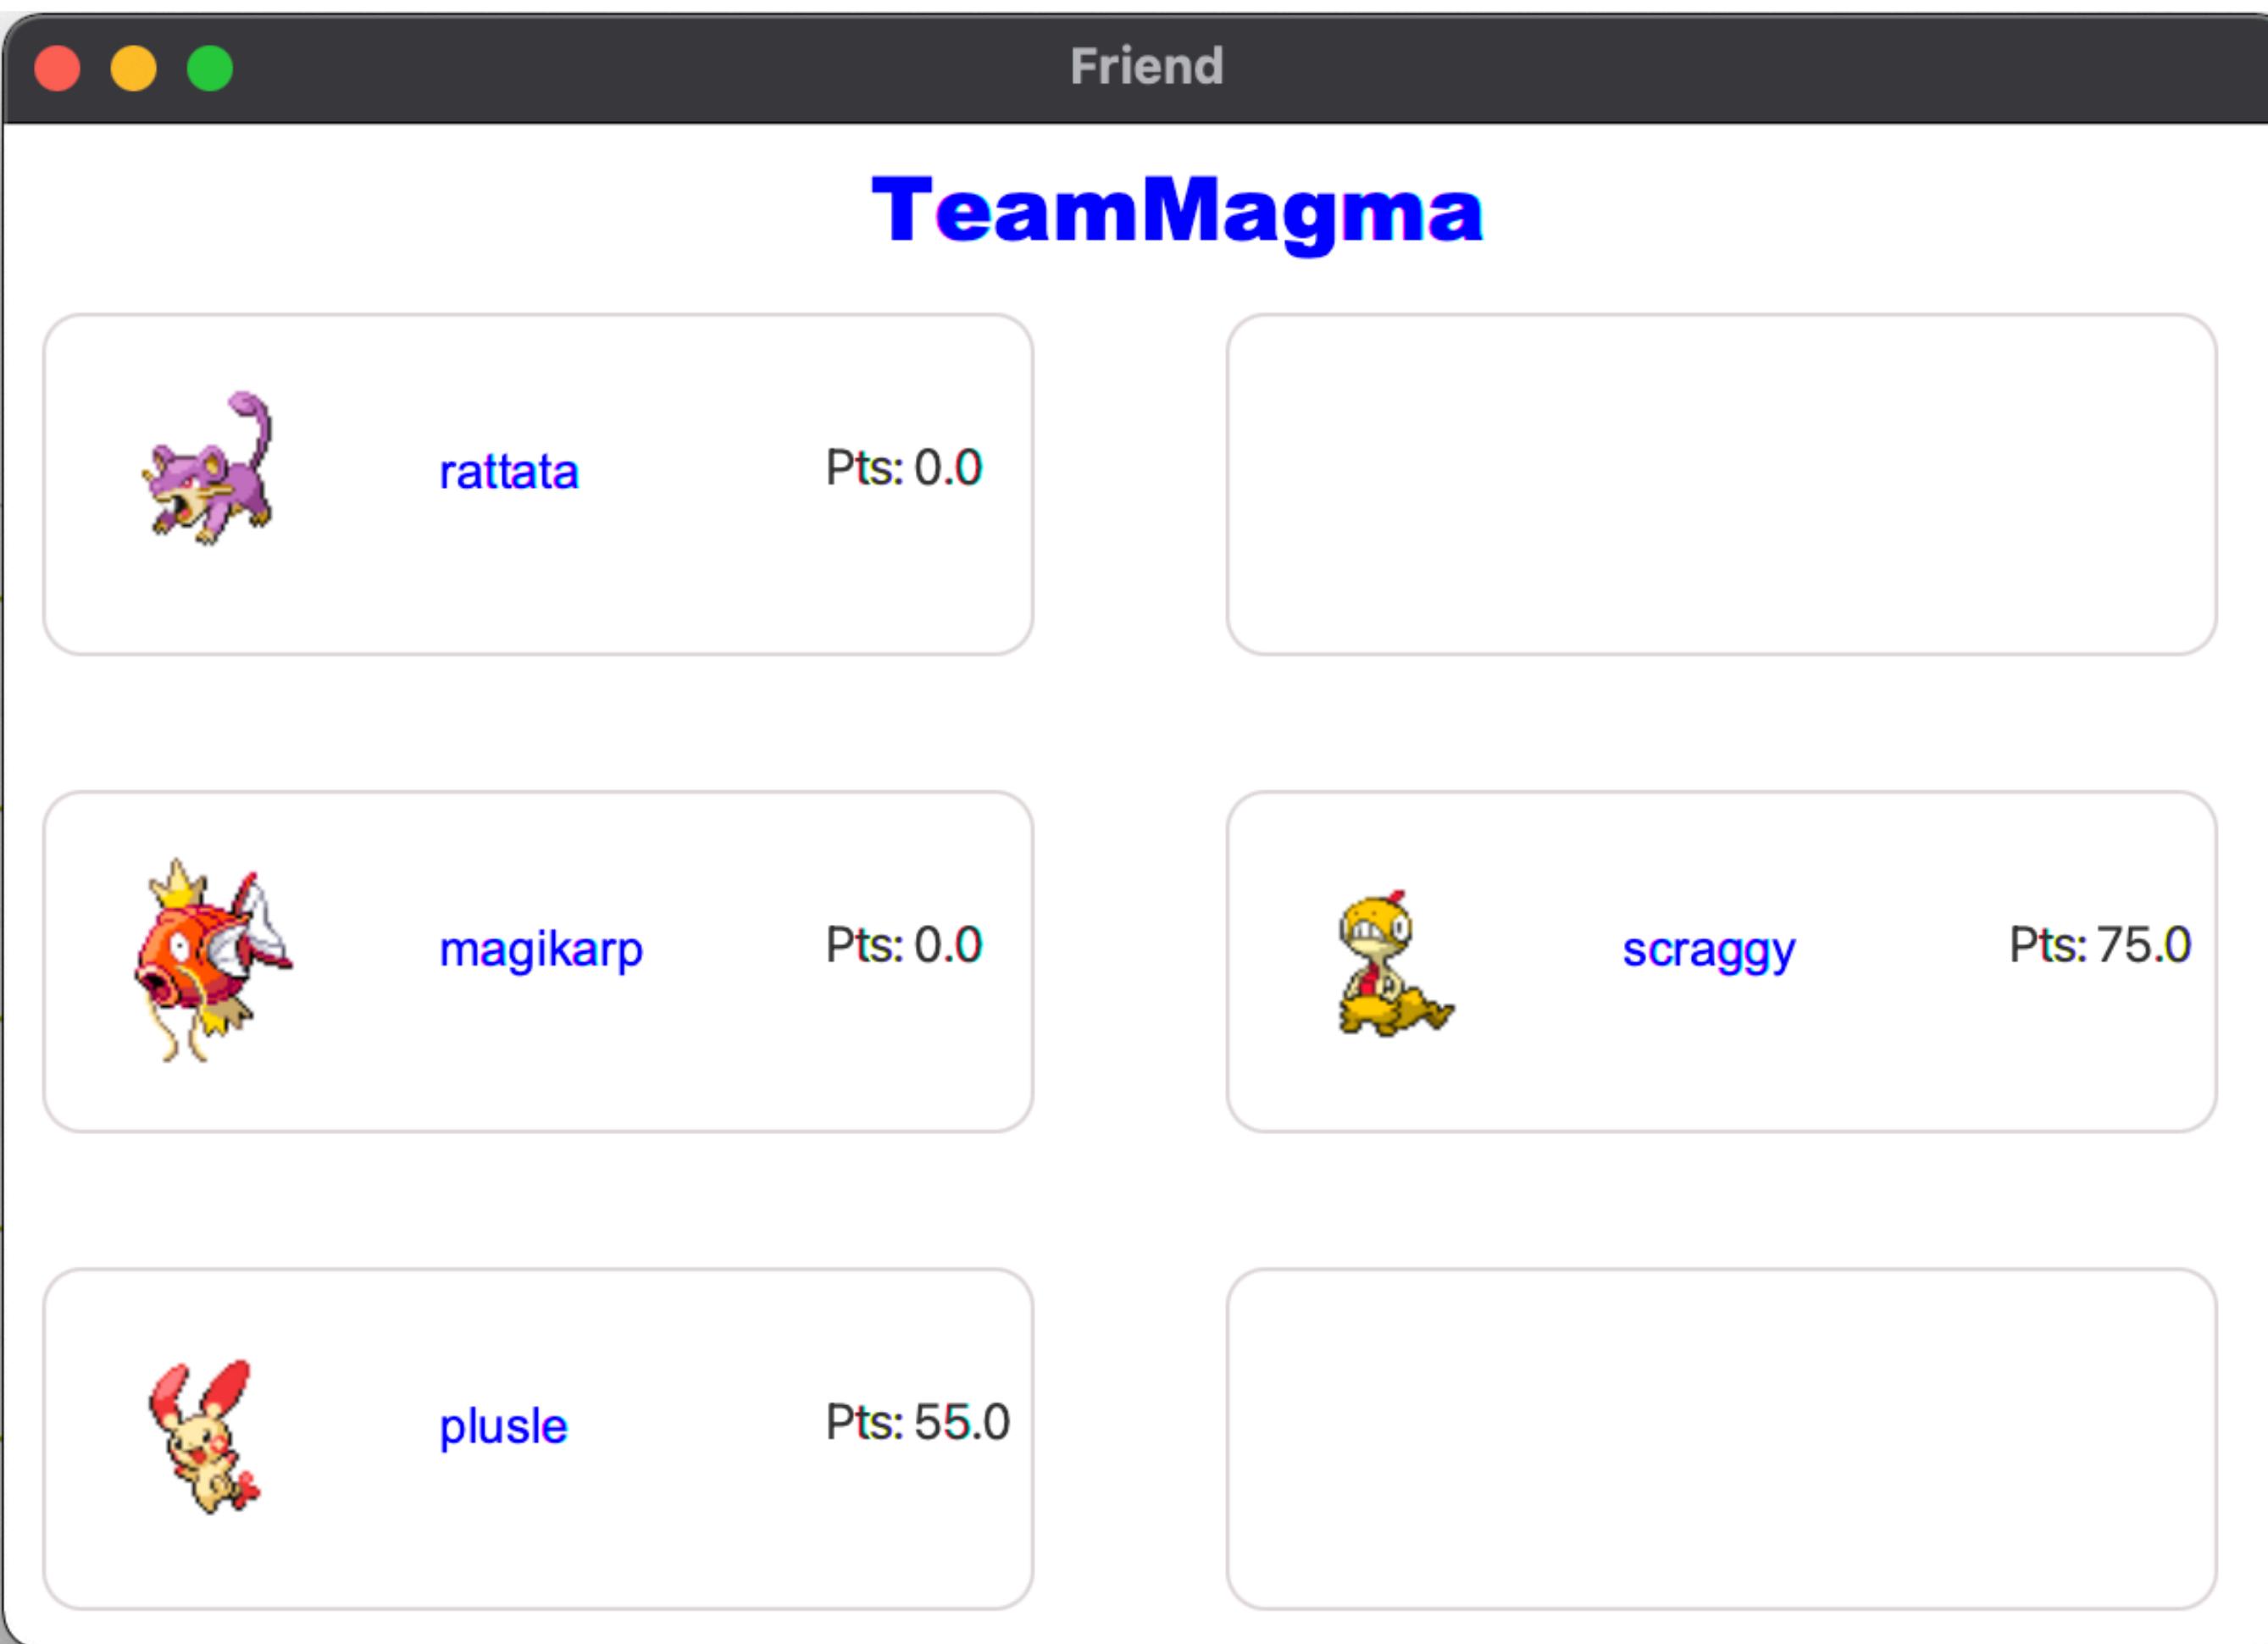

- The Pokedex will help you to discover new Pokemons and to know more about Pokemons you already know.
- You can use as many parameters you want for searching, but at least one should be used. When you have set up all the values you want, then click “filter” to receive the result in the grey pane below.
- The image below shows an example of filtering. Don't worry if the images doesn't appear, if you are connected to the internet they will.
- You can click the Pokemon's name to open a new window with the Pokemon information.
- The “BACK” button will redirect you again to the homepage

POKEMON WINDOW

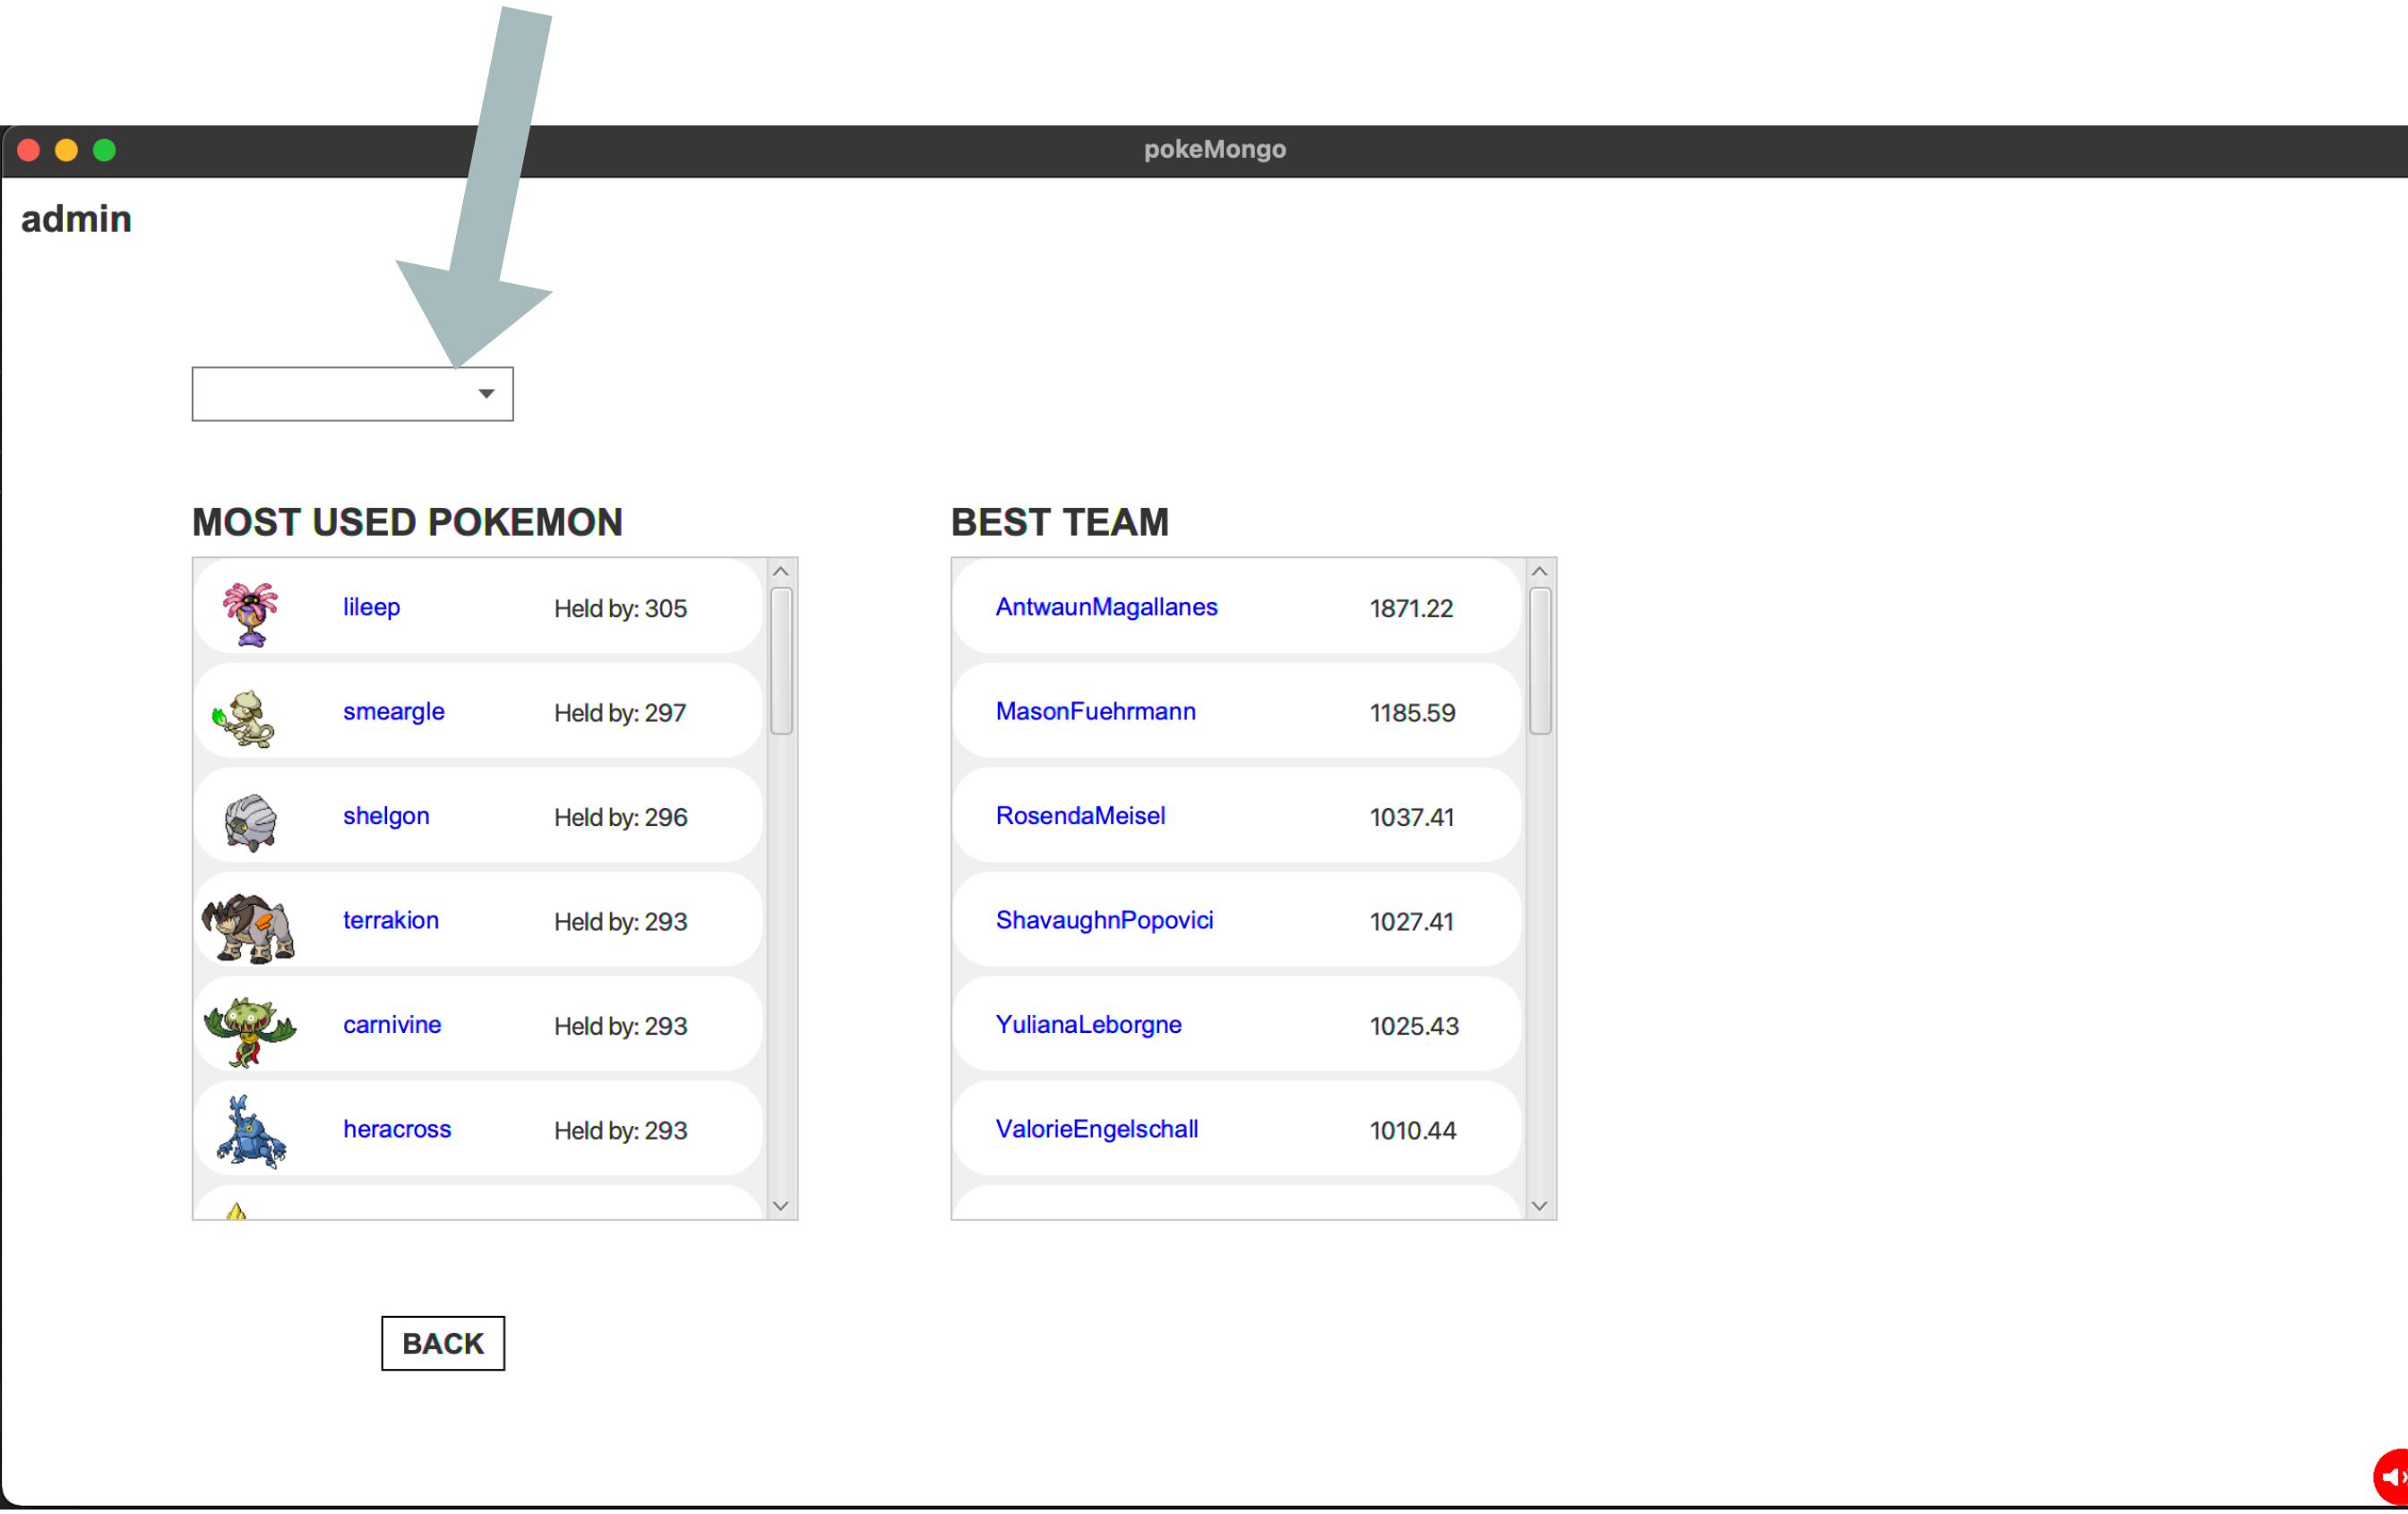

- In this page all the information regarding a single Pokemon are shown.
- The basic information are: the pokemon name, its type, weight, height, catch rate and its biology (a short description).
- At the left bottom you can see a plot in which it's displayed the evolution of the selected Pokemon in the last thirty days.
- As the admin you can delete all the post present in the POSTS section. You cannot post.
- If you try to click “Comment” in a post, you will not view anything.

OTHER USERS WINDOW

- Here you can see the team of another user.
- The empty panes indicates slot without Pokemons.
- You can click on a Pokemon name to display its page.

Click here to select the country

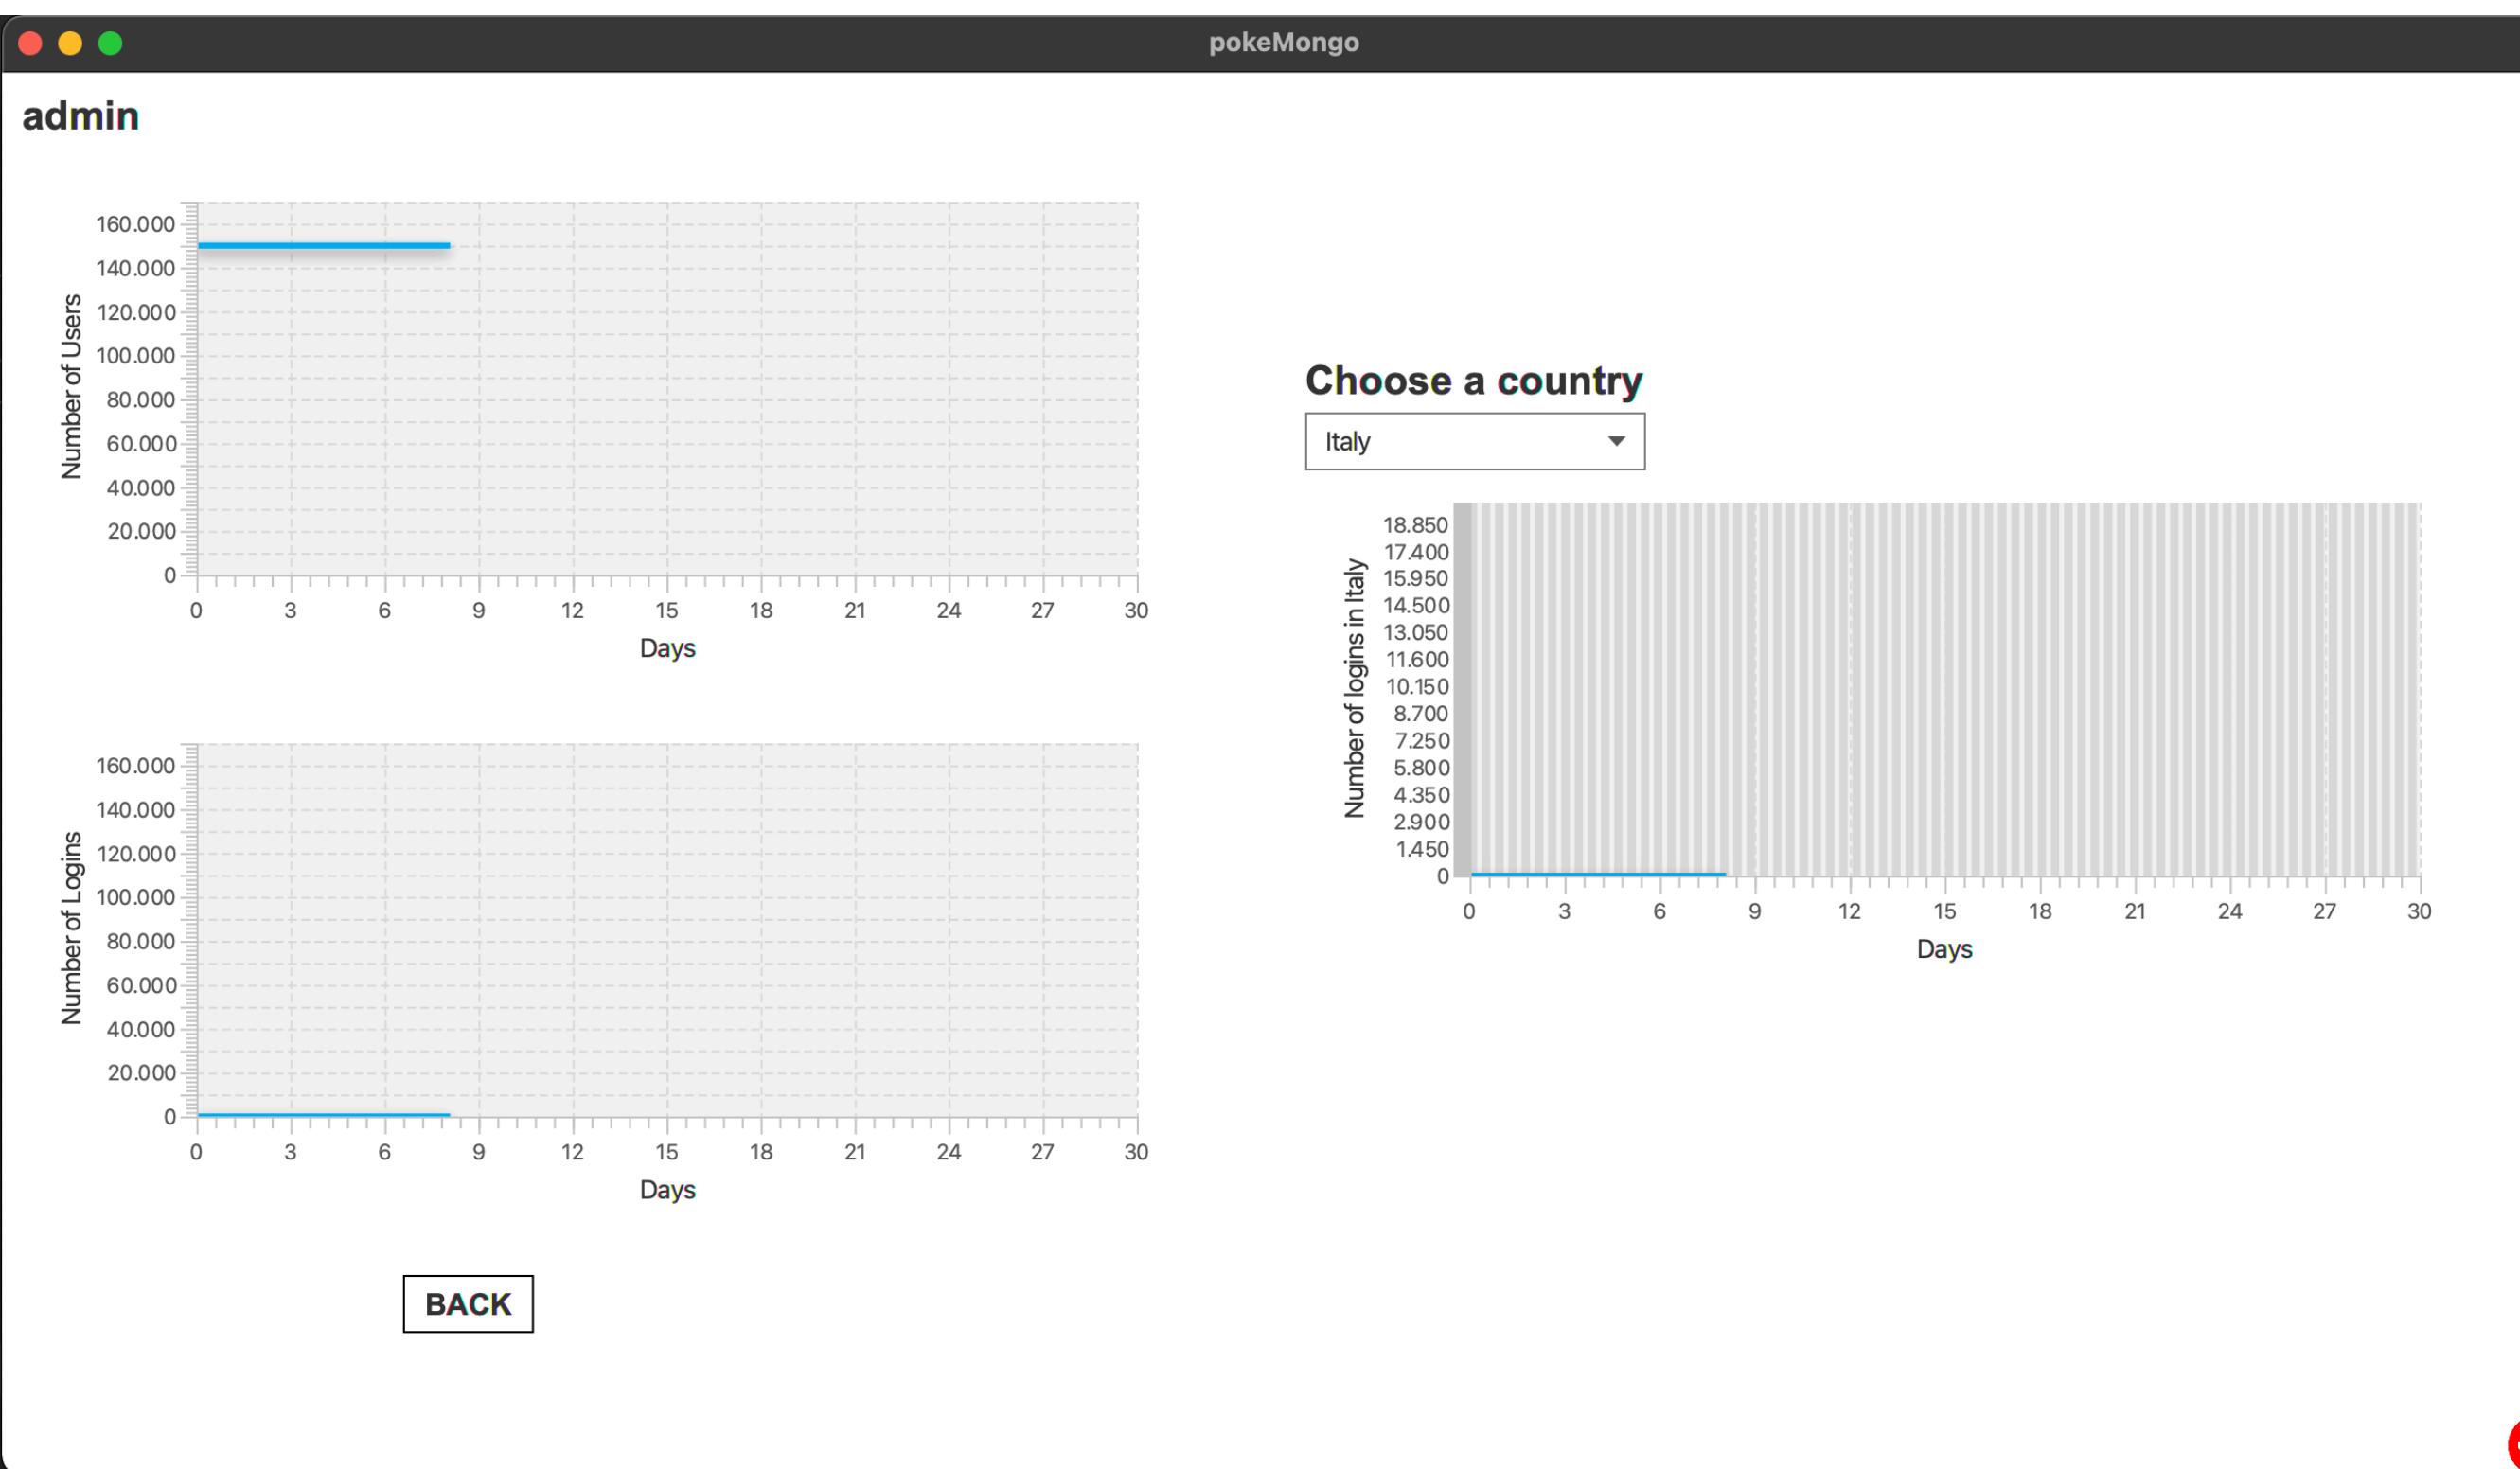

The screenshot shows the 'pokeMongo' application interface. At the top left is the word 'admin'. In the center, the title 'pokeMongo' is displayed above a dropdown menu with a downward arrow. Below the dropdown are two sections: 'MOST USED POKEMON' and 'BEST TEAM'. The 'MOST USED POKEMON' section lists six entries with icons, names, and counts: lileep (Held by: 305), smeargle (Held by: 297), shelgon (Held by: 296), terrakion (Held by: 293), carnivine (Held by: 293), and heracross (Held by: 293). The 'BEST TEAM' section lists six entries with names and scores: AntwaunMagallanes (1871.22), MasonFuehrmann (1185.59), RosendaMeisel (1037.41), ShavaughnPopovici (1027.41), YulianaLeborgne (1025.43), and ValorieEngelschall (1010.44). At the bottom left is a 'BACK' button, and at the bottom right is a red circular icon with a speaker symbol.

RANKING

- Here are displayed all types of ranking.
- If the choice box doesn't display any country name, then you are looking to the World Ranking.
- If you change country the “most used pokemon” and the “best team” ranking will change based on the country selected.
- Being an admin means that you cannot have friends, so that pane will not be displayed

ANALYTICS

- In this page you can take a look about some statistics.
- The “number of Users” graph shows the number of user currently signed up, in the last thirty days.
- The “number of LogIn” graph shows the number of user currently logged in, in the last thirty days.
- For showing the logins for a specific country, select the country using the choice box, then the graph in the right side of the window will show you the information requested.

Add Pokemon Remove Pokemon

Pokemon name <input type="text"/>

REMOVE

ADD/REMOVE POKEMON

- Click one of the radio button in the top, to show to display the remove panel or the add panel.
- Add panel: You have to fill all the textfield before clicking “ADD”. “Type2” can be leaved empty.
- Remove panel: Insert the name of the Pokemon you want to remove from the system. If the operation succeeds a label will tell you so.

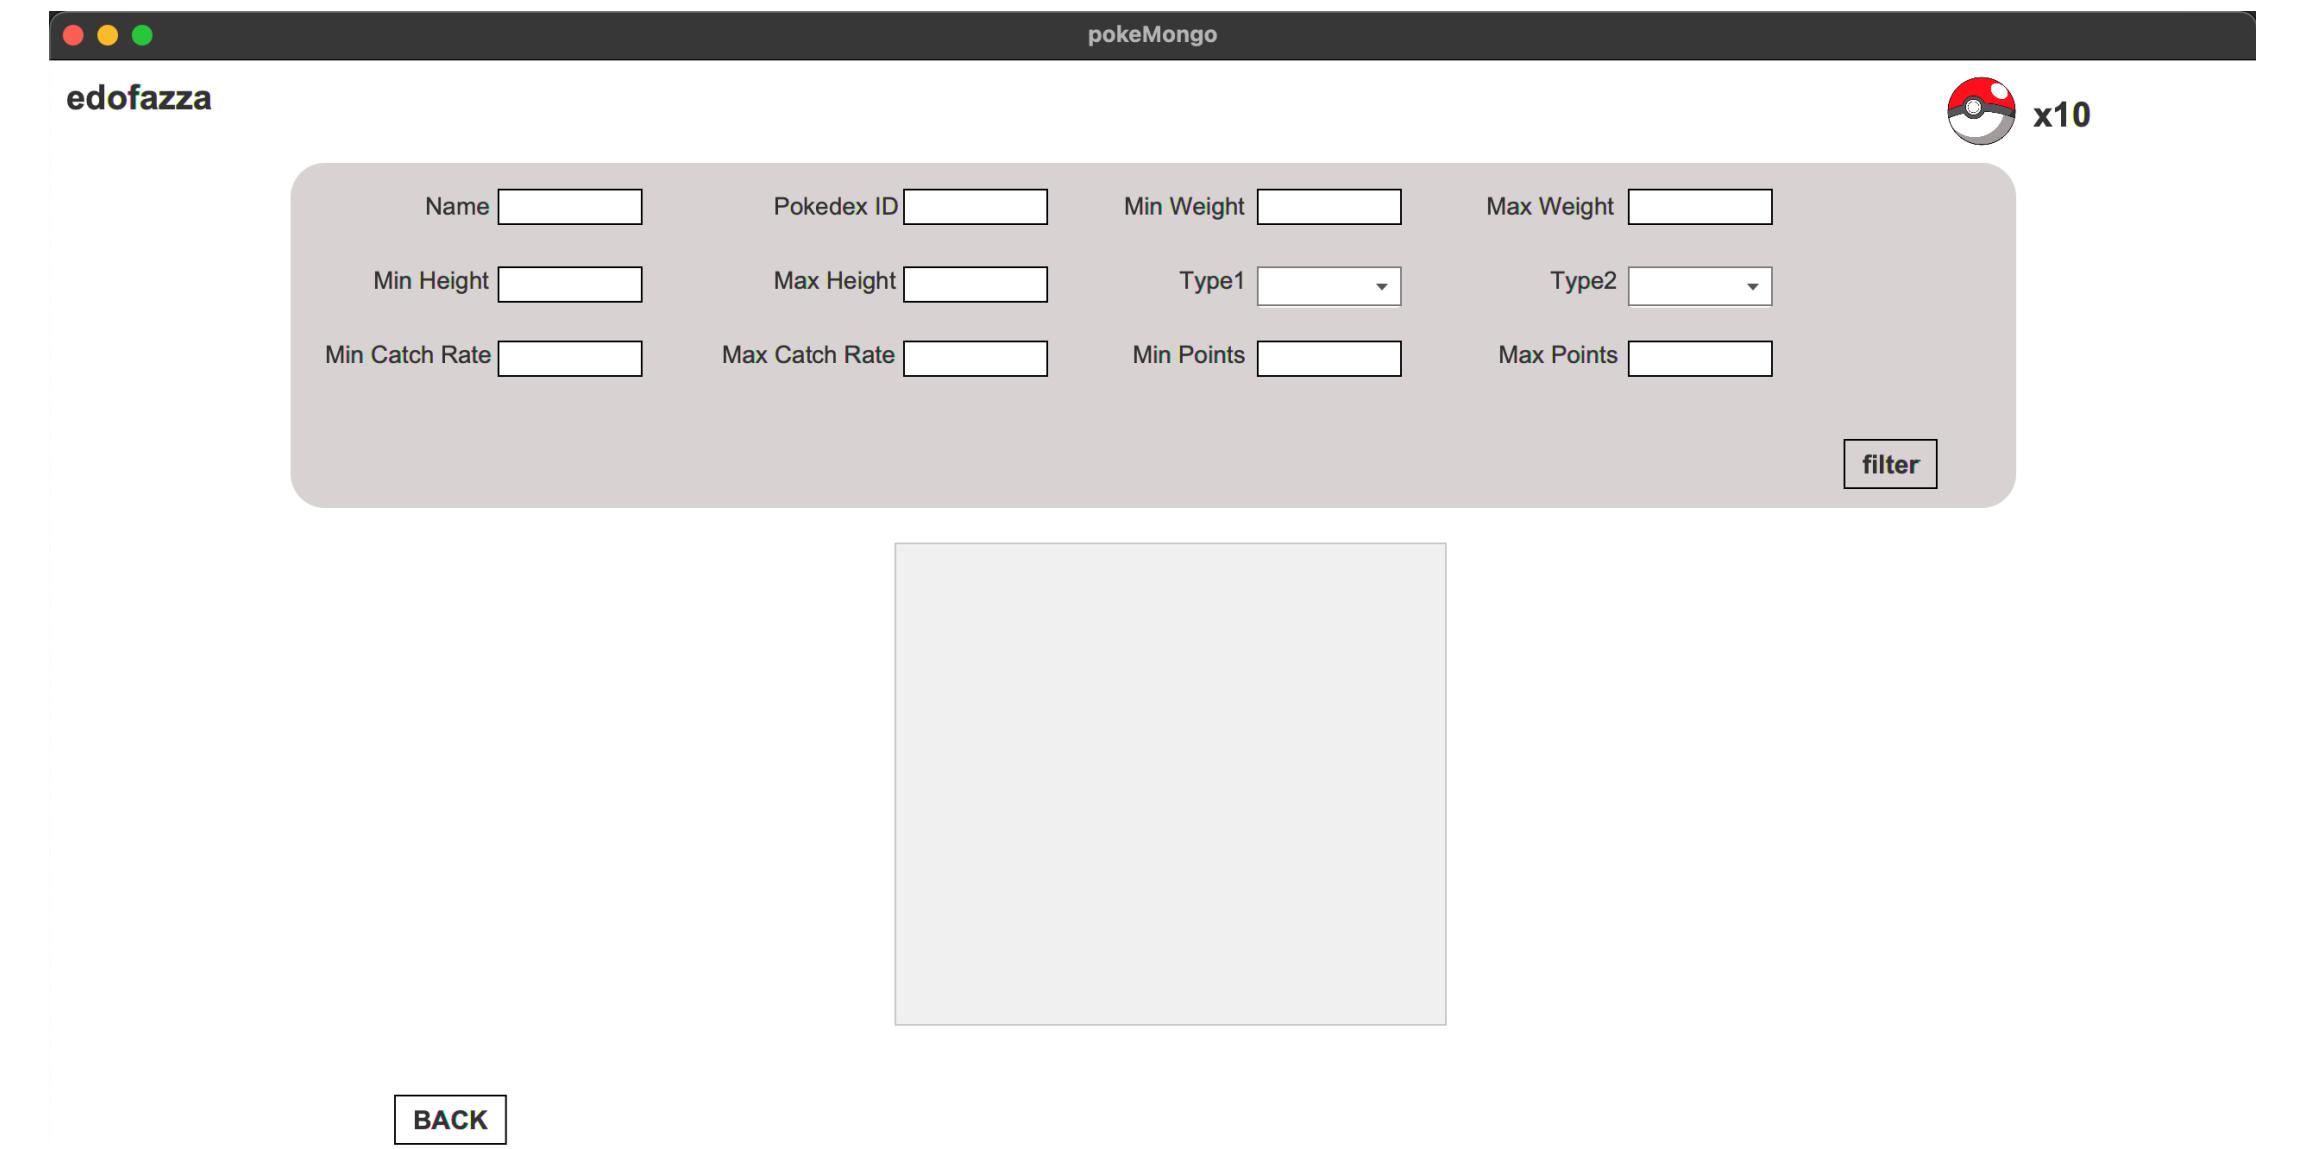

DELETE USER

- Remove panel: Insert the username you want to kick out. If the operation succeeds a label will tell you so.

ADDITIONAL USEFUL INFORMATION

A screenshot of the pokeMongo search interface showing search results. At the top, the header "pokeMongo" and user "edofazza" are visible, along with a red circle containing a white speaker icon in the top right corner. The search form is identical to the one above. Below the form, a list of pokémon entries is shown in a table format:

Pokémon	Pokedex ID
diglett	Pokedex ID: 50
koffing	Pokedex ID: 109
iggybuff	Pokedex ID: 174
hoppip	Pokedex ID: 187
skiploom	Pokedex ID: 188

A "BACK" button is located at the bottom left, and a small speaker icon is at the bottom center.

TURN THE MUSIC ON/OFF

- Every single page has a different song, but sometimes you may want to play in quiet. Don't worry, I have the solution for you.
- In the right bottom corner, you can see a circle with a white audio symbol in it. Just click it to turn the music on or off.
- If the circle color is black it means that the music is on. On the other hand a red circle means the the music is currently off.
